God in M&M’s (Movies and Music)

Whether intended or not by the screen writers, musicians and authors, we can see religious symbolism or God’s presence and action in film and music. *It is important for the facilitator to come prepared with movie and/or music choices. Clips can be downloaded online from Wingclips and might include: Cloudy with a Chance of Meatballs, Amistad, The Emperor’s Club, the Karate Kid and The Lorax.

Workshop Guide:

- Describe how our faith can be enriched and developed when we begin looking for God’s presence in everything and everywhere.
- Briefly share about a time you personally experienced something in a film, music or book that enriched and/or shaped your faith.
- Show movie clips one at a time. What do you see or hear in the film clips that might be God speaking?
- Listen to music clips following the same format.
