# A NEW VISION

By Michael Goldsmith

Thank you to everyone who attended the parish meeting. It was wonderful to see so many members of our parish family there as we did the important work of the church, and discussed our vision for the future of Nativity, including our new logo. I hope you all love our new Nativity logo as much as I do. I wanted to give you a few words of explanation about it. The central feature is the manger as represented by the X holding the infant Jesus. Above the manger is the budded cross which adorns Nativity's steeple. Both the cross and the manger are framed by a quatrefoil; one of the main architectural features of our stain glass windows and which can be found throughout our sanctuary. The phrase "where faith holds wide the door" is from the Christmas Hymn "O, Little Town of Bethlehem." It is both a wonderful statement of who we are called to be as the Church, and it is also a reflection of our 2020 VISION process. In that process you identified your desire to make this church a place where all of God's people are welcomed and loved. Our new logo represents our new vision for Nativity. As we look with great hope and excitement towards the joyful future God has offered to us, I pray our new logo will serve to remind us all of God's love; a love gifted to us as in the form of a beloved child placed gently in a manger.

## STEWARDSHIP OF CREATION

By Mary Johnson

The field trip to where our garbage goes, the Covanta Waste to Energy facility, was most interesting and also strangely comforting. We are so lucky to live where one of these plants exists. There are only a few like it in the country. The main reason we have it is because we have the Redstone Arsenal here. The arsenal heats and cools most of its buildings with steam. Our city garbage facility burns the garbage from our green bins and pipes the resulting steam to heat and cool the Arsenal buildings. 690 tons of waste a day supplies the energy for the arsenal! One ton of garbage is the energy equivalent of a 142 gallon drum of oil! And the exciting thing is that this facility and its resulting ash and steam is 99.9% pollution free!

When the facility was built, some 25 years or so ago, it took care of all our garbage but the city has grown and the facility has not, so now we do have excess that must go to the landfill. There is also the problem that the garbage we have a huge excess of these days is plastic. The facility can take care of plastic but the plastic burns at a much hotter temperature than the rest of the garbage and the hotter the temperature, the less the amount of garbage that can be burned at one time, thus the more, plastic and all, that must go to the landfill. The landfill must be covered each night, so the ash, which is very heavy, is used to cover it each night. There are other uses for the ash being developed, such as road surfacing and repair. Metal is separated from it and turned mostly into rebar for construction.

On Recycling, we learned that it is a strictly "for profit" business in this country, as opposed to European countries which subsidize it. Where plastics are concerned, if our citizens don't (continued page 4)

(continued from page 3)

follow the rules of what to put in the big blue recycle bins, and put plastic bags and other than narrow-mouth bottles, plastic sheets and dirty things, the whole bin is contaminated for recycling and will go in the garbage. If it happens too frequently, the company can't make money and will go out of business.

We may hate that plastics are such a source of pollution in our oceans and everywhere, but the reality is that plastics are here to stay. It is useful and it is cheap. The best solution is to Reduce the use, Reuse where we can and Recycle where we can. In order to really make a change and become better stewards of this wonderful land we live in, we must try to curb our habit of being a throw-away society.

## RECYCLING TIPS

- Blue Bins from RANA (Recycling Alliance of North Alabama) Follow Directions EXACTLY as they are printed on bin lids. The enemy of recycling is contamination.
- Clean, dry, plastic film from dry cleaning bags, shopping bags, shrink wrap, bubble wrap (as little paper as possible) is collected in plastic collection bins in front of WalMart, Publix, Kroger.
- Styrofoam (rinsed and dry) is collected by Publix in storefront collection bins.
- Glass ONLY at Jones Valley Target location. Place rinsed glass containers in recycling bins along the front wall inside store. No other Madison County Target locations collect glass.

- Excess cardboard boxes (clean, dry, broken down, no wax) can be given to Publix or Star Market grocery clerks. Balers are accessed inside stores, not from the loading dock. Most likely, your favorite grocery store would provide the same service.
- Cardboard can also be recycled at WestRock. See location and hours below.
- Paper can be taken to WestRock. WestRock Recycling is located at 205 Wholesale Ave NE, about a mile north of Oakwood Ave, just off of Meridian St. WestRock accepts paper and cardboard from the public Monday thru Friday from 8:00 am to 12:00 pm only. Turn right at traffic light from Meridian St onto Wholesale Ave NE. WestRock recycled paper is used in production of toilet paper.
- Number 5 Plastic such as rinsed cottage cheese, sour cream, yogurt containers are collected at Whole Foods (front of store next to tables) ONLY.

Parishioners are working with employees to recycle as much aluminum, glass, plastic, paper and cardboard as possible. We, the church, generate a lot of these materials! If you want to help, please contact Margaret Devenish (256-683-1028).

# CHILDREN'S ACTIVITIES ON ANGEL LANE

The Eucharist Instruction Class for first graders and their parents or guardians will be offered during the Sunday school hour for four Sundays in January and February. During the class, first graders are introduced to the Eucharist in an engaging way and learn about why we do things the way we do in church. The class helps children better understand church services and participate in them more fully. Class will meet on January 26 and February 2, 9, and 16th from 10.00 to 10.50. in the first grade Godly Play classroom. On February 23rd during the 8.45 service, the class will sit together in the choir loft to see the Eucharist up close. Parents or special adults plan to attend the class with your child as we talk about family and traditions. This class is designed for 1st grade students, but older children who would like to take part are welcome. Questions, contact Mary Coe at [mcoe@nativity-hsv.org](mailto:mcoe@nativity-hsv.org) or 256-533-2455.

## PAGEANT FUN

What a time of joyful worship we had at the Christmas Eve Pageant and Eucharist! The children were beautiful and a delight to see in the pageant. Many thanks to all the helpers who made the pageant happen. Special recognition to Lea Ann Barnett, our costume mistress and creator of Jesus' Birthday Party.

# THE MAGI ON THE MOUNTIAN

By Jared Cassidy

Every year, beginning after Thanksgiving, the Von Braun Astronomical Society (VBAS), located in Monte Sano State Park, presents a program call the “Star of Wonder” each Saturday night at 7:30 PM leading up to Christmas. The “Star of Wonder” presentation is about the star that features prominently in the Nativity story and the presentation tries to offer some astronomical possibilities for what the star could have been that the Magi saw, whether it was a comet, supernova, conjunction of planets, or that it could have been a miracle. For the past couple of years, three members of VBAS have presented a version of this program in costume as three of the Magi for two of the Saturday night programs in Advent. In

2019, the Magi presented their version of the “Star of Wonder” planetarium program at the first two Saturday night shows in December. The Magi’s version of the presentation began with an entrance illustrating the three gifts gold, frankincense, and myrrh, followed by a telling of the Nativity story by Gaspar, some possible astronomical explanations for the star by Balthazar, and a current night sky constellation presentation on the dome by Melchior. The Magi were portrayed by Don Reed as Gaspar, Tom Burleson as Balthazar, and Church of the Nativity member Jared Cassidy as Melchior. (L to R in the above photo by Barbara Reed)

## 8TH ANNUAL COMMUNITY SEED SWAP!

Friday, January 31<sup>st</sup>, 6:00 pm

The Episcopal Church of the Nativity

FOOD AND DRINKS PROVIDED BY LOCAL ARTISANS

This event promotes heritage seeds and the art of seed saving. This year we will be featuring “seed stories”, so if you have a special story about the seed you are sharing, let us know!

We ask for a \$0-30 donation at the door - in the spirit of community no one will be turned away. All proceeds are directly given to the Sand Mountain Seed Bank.

More announcements to come, stay tuned!

*The Heavens Declare— Science, Religion & Wernher von Braun* by Travis Collins, Ph.D.

Last year's Apollo 11 50th anniversary gave us an opportunity to celebrate Huntsville's contribution to mankind's greatest technological achievement—sending humans to the moon and returning them safely to earth. It also gave us an opportunity to explore Dr. von Braun's deeply spiritual side, too. In this short, (82 page) book, Dr. Travis Collins (the preacher at the Egg Beater Jesus First Baptist Church), explores von Braun's compelling reconciliation of science and religion as sisters. The book is based on several of Dr. von Braun's speeches and some interviews with his family and friends (and fellow Nativity parishioners). Please read a few of his thoughts below:

“While science tries to learn more about the creation, religion tries to better understand the creator. While, through science, man tries to harness the forces of nature around him, through religion he tries to harness the forces of nature within him.” “Many men who are intelligent, and of good faith say they cannot visualize God/ Well, can a physicist visualize an electron? The electron is materially inconceivable, and yet is so perfectly known to its effects that we use it to illuminate cities, guide our airlines to the night skies, and take the most accurate measurements. What strange rationale makes some physicist accept an inconceivable electron as real, while refusing to accept the reality of God on the grounds they cannot conceive him? I’m afraid that, although they really do not understand the electron either, they are ready to accept it because they managed to produce a rather clumsy mechanical model of it borrowed from rather limited experience in other fields, but they wouldn’t know how to begin building a model of God.”

“When man, almost 2000 years ago, was given the opportunity to know Jesus Christ, to know God who had decided to live for a while as man amongst fellow men, the world was turned upside down to the widespread witness of those who heard and understood Him.” In this reaching of the new millennium through faith in the words of Jesus Christ, science can be a valuable tool rather than at an impediment. The universe, as revealed through scientific inquiry is a living witness that God has indeed been at work. Understanding the nature of the creation provides a substantive basis for the faith by which we attempt to know the nature of the Creator.”

Dr. Margrit von Braun contributed the introduction of *The Heavens Declare*.

## CONNECTIONS BOOK CLUB

We had our first meeting with a great group of 14 ladies from age 23 to 83 (or whatever Sally Ann's age is)! Connections Book Club will read *Inspired* by Rachel Held Evans. We will read one chapter per week starting with the introduction. Feel free to jump in any time – there won't be a quiz. Our Monday meetings will be held at Below the Radar from 5:30 until 7:00. All are welcome for food, fellowship and discussion! If you have questions, feel free to contact Minda Alexander at [mindajalex@yahoo.com](mailto:mindajalex@yahoo.com) or 256-694-0554.

## THANK YOU

Dear Nativity Family,

Thank you so very much for the gift of your presence, prayer, and participation in celebrating my retirement and transition into a new expression of ministry. My heart is overflowing with love and gratitude for your making it such a joyous celebration!
