GOALS + VISION

HOME
22 FAMILIES
COMMUNITY
CONGREGATION

BETHANY PRESBYTERIAN CHURCH

Even before a fire destroyed their worship space, Bethany Presbyterian Church was exploring adding much-needed housing to their campus. The fire gave them the opportunity to truly re-imagine their future. They have partnered with Proclaim Liberty, a housing non-profit created by the Presbytery of the Inland Northwest in 1971 to be the project sponsor.

PROJECT MISSION STATEMENT

Through our faith journey, we strive to integrate an inspirational, flexible, and adaptable church and housing community that demonstrates radical hospitality for our residents, immigrants, refugees, and community.

HOUSING PROJECT

22 TOTAL UNITS

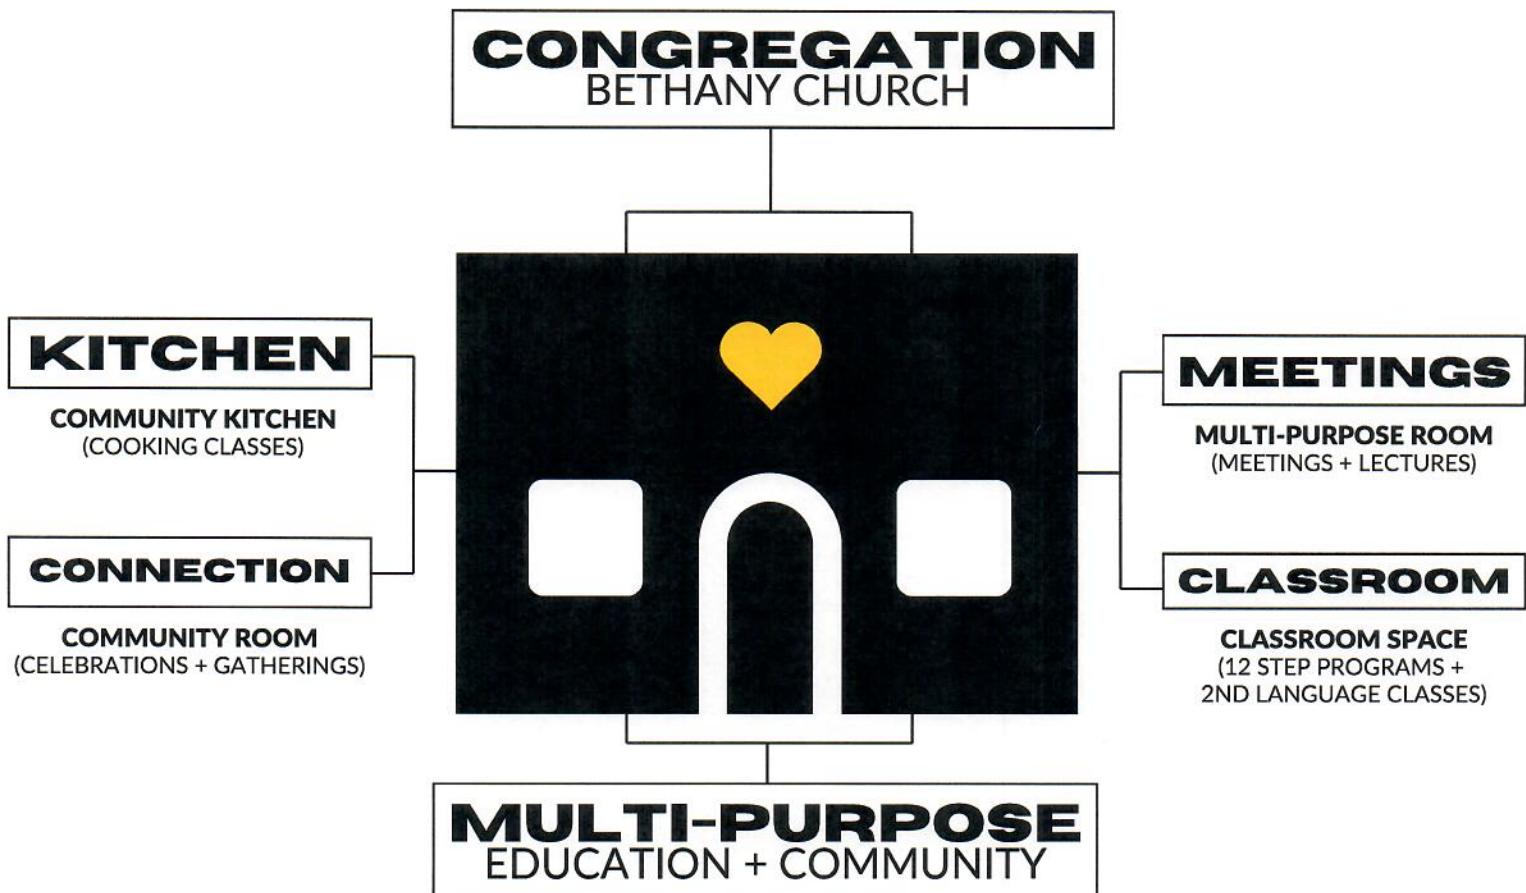

HOME FOR FAMILIES

As many congregations across the nation see dwindling attendance, congregations are finding new ways to put their missions into action. Bethany Presbyterian Church is taking the devastating fire at their church to find new ways to provide housing to the homeless and other low income families. As a congregation, they have been “homeless” themselves for the last two years. Their compassion, experience, and commitment have led them to this use of their property. Proclaim Liberty is honored to be their partner in redevelopment.

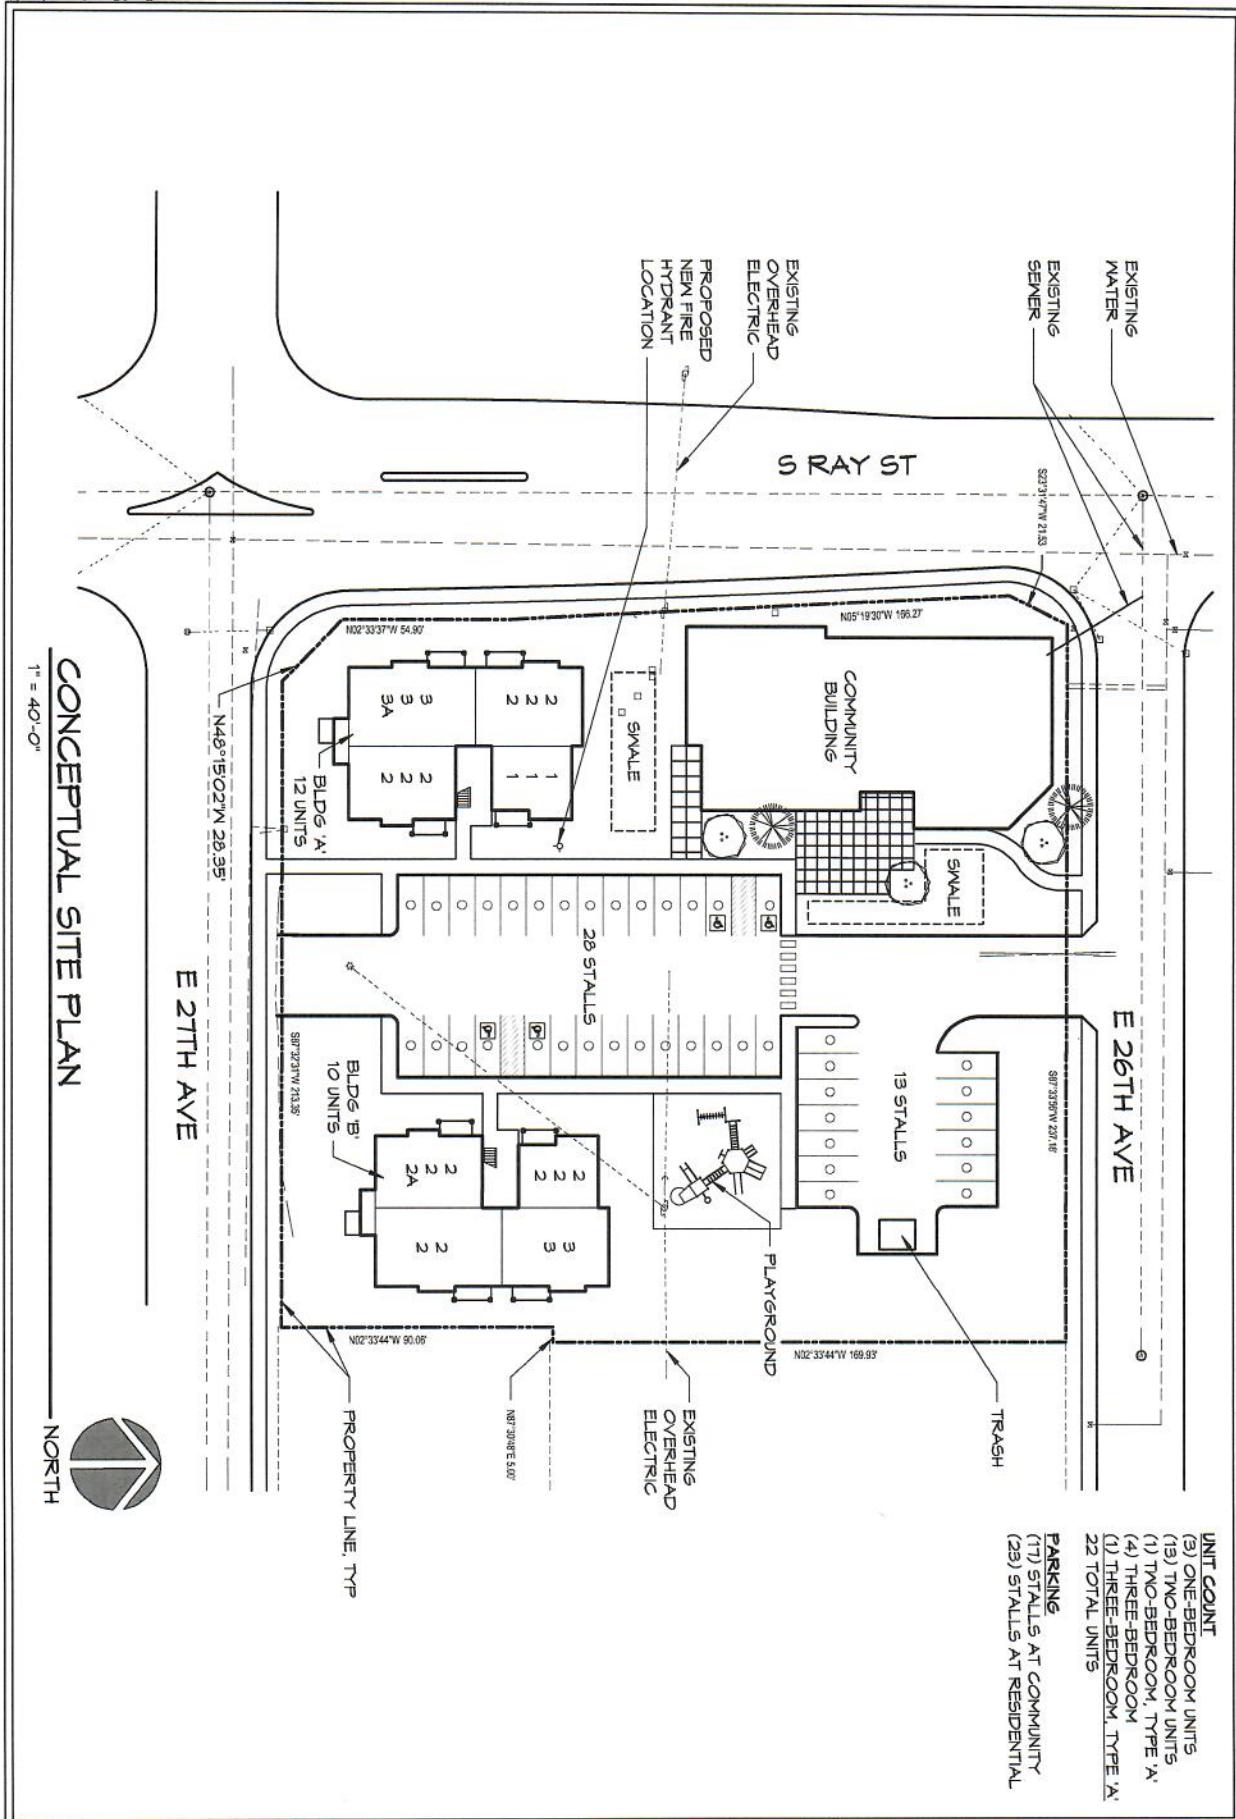

COMMUNITY CENTER

GATHERING SPACE

COMMUNITY BUILDING

This project features a large and robust community building. It has been designed with a dual purpose in mind - to provide sacred spaces for the Bethany congregation and to provide a multi-purpose space for the apartment community and surrounding community.

FUNDING STATUS

PROCLAIM LIBERTY HAS ALREADY MADE GREAT PROGRESS TOWARDS FUNDING

- Bethany Presbyterian Church has pledged a minimum of \$600,000 in insurance proceeds.
- The City of Spokane has already awarded over \$2 Million in HOME Funds.
- Proclaim Liberty will mortgage what the property can safely support (estimated at \$2.97 Million).
- We are finalists for a \$3 Million FHLB request (Announcement in late December).
- A Commerce Housing Trust Fund application has been made (Announcement in December).

And yet a funding gap still remains before we can begin the construction of this project.
