

Pavement Maintenance & Reconstruction's 2026 Top Contractor Award

Pavement Maintenance & Reconstruction's Top Contractor award spotlights the annual top contractors in the **pavement, sealcoating, striping, and pavement repair** markets.

The following survey of paving and pavement maintenance contractors allows us to develop an objective and verifiable listing in each of these four industry segments.

To do that, we need to know:

- Gross Sales Volume for your fiscal year (FY) 2025 (regardless of the date that fiscal year ended).
- A breakdown by percentage of the type of work that generated those 2025 sales.
- Third-party verification of that sales total (see additional explanation at the end of the survey).

To determine whether a company qualifies for one (or more) of the five lists, we will multiply your total 2025 sales dollars by the percentage of work done in each industry segment. For example, if a contractor reports \$1 million in 2025 sales and generated 40% of those sales from paving, the number used to determine qualification for the Paving Top Contractor List would be \$400,000 (\$1 million x 40%).

Note: No sales figures will be reported or published; sales figures are only used internally for determining each list. Also, no contractor will be eligible for the list without third-party verification of your FY 2025 Gross Sales Volume.

What is the overall timeframe?
