Dear Strat-o-matic,

I have owned your games (baseball-football) for several years now, & cannot believe this incredible game yet. I am a P.E. major at Atlantic Christian College - but these games are the best teacher's for the art of coaching I have seen. It is a shame you are not advertised more or found in stores - this game would be owned by every student of the games. There is no better teaching guide. I would like to order the following:
