Glen Head, New York 11545

Dear Sirs:

I have one of your Strat-O-Matic College Football games and I feel that it is the best college football game on the market.

The game has all the action of real college football and it has all the factors involved in the game. The teams are put together well according to their strengths and weaknesses, and with the speciality cards it puts the personal abilities of the ~~the~~ player to the teams advantage.

I feel it is the best game and I will always be a supporter of the game and the company.

Yours Truly,
Gerard Duke
