

June 4, 1975

Dear Sus,

I am writing in regard to your Strat-o-matic Football game. My husband and I enjoy playing this game. We feel it is the best football game ever made.

My husband bought this game in 1967 when he was 17. Then he got me to play. After playing Strat-O-Matic Football, I knew more about the sport itself. Today, football is my favorite sports. Of all the football games made this keeps your interest and you actually learn football.

Since my husband and I enjoy playing the game, I would like to purchase more team playing cards for the recent years. Would you please send me an order blank, so I can order my cards as soon as possible. I also would like to know the price of a new game.

Thank you,  
Mrs. Alice Pasile
