Dear Sus;

This is just a little note of thanks for the great games. My son (my 15 year old son!) is one of your greatest fans. He has - or will have after we receive the college football game - all of the Stato-Matic games and has developed leagues. The leagues include a "minor" league season using only modern players; a "major" league using hall of famers & modern players (actually my son is the National League & I'm the American League); a football league; a basketball league & tournament. To make a long story short - my son craves Stato-Matic games & I'm sure he will enjoy the new college football ~~league~~ game. He's already devised a 10 game schedule with plans for a post season tournament! Again - thanks for the games.
