**Subject:** Partnership

Dear Mr. Richman:

I have been enjoying Strat since 1979 and plan to continue buying SOM products for the rest of my life. I am concerned that a partner could possibly try to change something great and leave thousands of Strat players frustrated and disappointed. During your exclusive leadership, change has come, but positive change. The few times things did not go well, necessary corrections were made. What I am saying is, "Don't ever allow someone to compromise the masterpiece you have created."

Today, I am still great friends with many of the guys I knew in high school "class of 1984" because of our play-by-mail baseball league. Also, one of my favorite means of relaxation is to spend quiet time, while the rest of the family is sleeping, playing Strat basketball or hockey on my computer.

I'm sure you know what you are doing, but I guess there is some cautious concern for me and many other Strat players.

Sincerely,

Charles P. Bender
