ADDENDUM to the Public Affairs Specialist (CORE)
(Digital Engagement---Multilingual)
GS-1035-09

MAJOR DUTIES AND RESPONSIBILITIES

Planning, Implementation and Evaluation Multilingual Digital Engagement

Implement multi-lingual digital engagement channels into disaster operations at Joint Field Offices, Regional Response Coordination Centers, and the National Response Coordination Center. Collaborate with ESF 15 staff, or those from other Emergency Support Functions to assist disaster response and recovery operations.

Develop content for any disaster-related, multi-lingual social media channels. Collaborate with ESF 15 to engage disaster survivors through new digital communication outreach opportunities. Utilize social media channels to deliver timely safety information before, during, and after emergencies to those with limited English proficiency.

Assist in the evaluation of a portfolio of existing digital communication efforts and to ensure optimal use to serve those with a limited English proficiency impacted by disasters. Provide continual recommendations for improved outreach through existing digital communication channels to disaster survivors.

Development Spanish Materials/Materials Targeted to the Hispanic/Latino Audience

Provides advice on outreach strategies to Spanish speaking audiences as programs develop communication plans. Recommends approaches, specific topics or aspects to be emphasized, and the most effective vehicle(s) to use for intended audience. Develops and writes informational materials designed to reach selected national audiences through digital media with an emphasis on Spanish language digital media.

Data Analysis

Regularly analyze digital engagement statistics and metrics to gauge the effectiveness of FEMA’s multi-lingual outreach to those impacted by disasters. Assist in the development of reports of digital engagement activity for senior External Affairs leadership at headquarters, regional offices, and in Joint Field Offices, as needed.

Training Tools Development

Develop and refine job aids for disaster related Digital Communication Specialist responsibilities, specifically related to social media messaging and monitoring. Conducts research on emerging industry best practices to engage disaster survivors and disseminate to Digital Communication Specialists within FEMA.
