

To view PDF files, download the free Adobe Reader from Adobe.

<http://get.adobe.com/reader/>

Download times may vary depending on your Internet speed.

Instructions to view the 50 Days of Prayer PDF

1. Click on the link "Click here to Download the PDF in English."
2. Once the PDF has opened, save the PDF to your computer for use.
3. In the top left corner of your screen, click on File, then click on >> Save/Save As/Save Page As **OR** in the lower right corner of the document page, click on the 5<sup>th</sup> icon in the shape of a computer disk.
4. A dialog box will open. Rename the file if so desired and choose a location on your computer to save your PDF for your use.
  - We recommend saving it to your desktop so the PDF can be easily located.
5. Click Save in the dialog box, and the PDF will save to your desired location.

Instructions to download and use an ePub file

For an iPad

1. Add any PDF or ePub files saved on your computer to your iPad by using iTunes.
2. Connect your iPad to your computer.
3. Drag the desired ePub file to your iTunes library.
4. Next, drag the desired ePub file to your iPad in the menu bar. iTunes will sync with your iPad and transfer the file to your iPad.

For other eReaders

1. Download and install the free Adobe Digital Editions program to your computer.
2. Authorize your computer. If it does not show automatically, open Adobe Digital Editions (it should be on your desktop after downloading) and select the dropdown button Library at the top left, then go to Authorize Computer and fill in the information.
3. Add any PDF or ePub files saved on your computer by using Adobe Digital Editions.
4. Select Library at the top left, then Add item to Library. Next, find the file you wish to add on your computer and click Open.
5. You should then see your files added to the right side of the screen on Adobe Digital Editions.
6. Connect your eReader to your computer. In a few seconds you will see your

- eReader has been added to the list under Bookshelves on the left side of Adobe Digital Editions screen.
7. Drag a file from the right side by hovering over it, holding down the left mouse button, and dragging it to the eReader file on the left side.
    - This file will turn medium gray when you hover over it. Then release the left button to drop the file. You may see a small window showing the status of the file being copied. When in doubt, click on eReader, and you will see all of your files inside that folder.
  8. Disconnect your eReader from your computer.
    - For the NOOK: ePub books are stored under “My Library” in “My Documents”; Barnes and Noble books are stored under “My Library” in the “My B&N Library.”
