Give yourself a chance to be a silly again user experience improvedMinor bugs fixedQuran, mosque list, God there are many voice-changing apps on the Google Play Store but good ones are few and far between. When it comes to calling, voice change apps let you change or modify your voice while making a phone call, She's less than that. That's because although it can be fun, the audience for such applications is very small. There are a few developers though who have come up with decent applications. Here are the top 5 call voice-over apps for Android. 1. Call voice the transist want to have some fun with your friends via phone calls? Change your voice in real time and add crazy sound effects the next time you're on the phone with a voice-changer - IntCall. The developers of this app consider it as the funniest app in the world. This is probably more of a love than a marketing option but the app can be fun to use. Lets you add effects to your voice in real time while making a call. Apart from changing the pitch of your voice, you can apply real-time effects like those of cuckoo clock, bells, airhorn, etc. Editor's Choice: Enjoy the easiest multitasking when on a call using Balloons 2. MagicCall MagicCall app has multiple sounds, making it the best voice app changer in the world like - fake call, Halloween background theme, funny voice-overr, female voice changer, say it with Trump, funny phone jokes, prank call, celebrity voice changer, male voice changer Voice changer girl, voice like Kim Kardashian, etc [googleplay url= MagicCall has more features in terms of changing audio compared to the app above. It has some preset sounds that make you look like some other popular people. Or at least, that's what he claims, but that doesn't seem to work for me. You can create a custom preset that you can use quickly later as well. There are background sounds so you can fake being at the party, for example. The only downside is that you have to register using your phone number even to try the app. So you have to choose this don't miss: the best music streaming services of 2019 – Final Chapter 3. Funcalls fool your friends by changing your voice during a real phone call. Change your voice during a phone call from loud and funny to deep and scary sounds. Play funny recorded sounds during a real-time conversation. [GooglePlay Link = FunCall is a really good app and it actually came as a surprise. Instead of trying to make you sound like a celebrity and fail, it simply changes your voice to five presets: a helium balloon (very loud pitch sound), funny sound (pitch sound is loud), man's voice (low pitch sound), scary sound (very low pitch sound), regular sound (normal sound). You can change between these during the call. There are about 10 different background sounds you can use during the call as well. The app also offers the option to record a fun call so you can easily share the call with other friends. Must Read: Top 5 Games Currently for Android – 2019 Edition 4. Call Sound Changer: Sound Changer with Effects To have some fun with your friends on phone calls? Change your voice in real time and add crazy sound effects the next time you're on the phone. On the surface, this app does similar things and other applications in this list. That is it lets you manipulate your voice during calls but instead of using presets, it gives you more control. You can change the different properties of your voice such as factor, pitch, shift, size, etc. Moreover, you can add echo effects, change the pace, etc. It also lets you download your music to add your voice to it. 5. Best Sound Changer - Call free buddies using different sound effects! [GooglePlay Link= And a great deal of factor with this one is that you need an SIP account and can only call users who have an SIP account as well. You can get free sip accounts in www.linphone.org or do a web search from a free sip account. To call landline or mobile phone numbers, you may want to create an SIP account with a sip provider with a .com address and these SIP accounts are not completely free. When you have it, the free version of this app will offer only three audio options: chipmunk, deep, and Android. The premium version contains 23 sounds including Saw Man, Alien (s), Cyborg (s), Android (s), Freaky, and others. Read next: 5 Best Face Swap Apps for Android Devices
