Prerequisites

- This plugin requires a Geomagic product listed in the heading. To verify your current version, launch the application and select **Help -> About Geomagic ProductName**. The text box at the top of the dialog indicates the current software version.

Installation

1. Verify that the USB cable between the FARO equipment and the PC is disconnected.
2. Verify installation of Geomagic product listed in the heading.
3. Log in to Windows as a user with administrative privileges.
4. Run the installer named **FaroLaserTrackerSetup87615.exe**.
5. Connect the USB cable between the FARO equipment and the PC.

User Instructions

See <http://www.geomagic.com/support/plugins/> for the latest instructions.

Known Issue

This plugin requires that the user be an Admin user of Windows.
