Prerequisites

The following prerequisites must be verified prior to installing the plugin:

- **Geomagic Software Version:** This plugin requires a Geomagic product listed in the heading above.

To verify your current version, launch the application and select **App Button**  **> About**. The About dialog box displays the current software version (2012.X.X).

- **Supported Operating Systems:** This plugin supports the 32-bit and 64-bit versions of Microsoft Windows XP, Windows Vista, and Windows 7.
- **Additional Software:** The Revware Microscribe Utility Software (MUS), version 6.0, must also be installed on your system.

Installation

To install the plugin:

1. Verify that your system is connected to the scanner.
2. Verify the installation of the supported Geomagic product (as listed above).
3. If necessary, log in to your system as a user with administrative privileges.
4. Verify that the correct version of the Revware Microscribe Utility Software (MUS) is installed on your system (as listed above).

For more information, contact your local MicroScribe administrator.

5. From the [Plugins Page](#) of the [Geomagic Support](#) web site, download the plugin installer. Be sure to download the correct bit version (32-bit or 64-bit) for your system.
6. Run the installer.
7. Start the Geomagic application and verify that the plug-in appears in the **Scanning Plug-In** drop-down list under **App Button**  > **Options** > **Hardware** > **Digitizers**.

User Instructions

Refer to the *MicroScribe Plug-In* PDF available in the **User Instructions** column on the [Plugins Page](#) of the [Geomagic Support](#) web site.

Known Issues

None
