User Instructions

See “*Minolta Plugin, Document Version F*”.

Prerequisites

This plugin requires a Geomagic product listed in the heading. To verify your current version, launch the application and select **Help -> About Geomagic *ProductName***. The text box at the top of the dialog indicates the current software version.

This plugin works with 32-bit Microsoft Windows XP only.

Fixes

- Miscellaneous bug fixes.
- Installation directory updated.
- Photogrammetry improved.
- User interface improved.

Installation

1. Verify installation of Geomagic product listed in the heading.
2. Log in to Windows as a user with administrative privileges.
3. Verify installation of the newest drivers that come with the Minolta equipment.

4. Download the [Minolta plugin from the Geomagic Support](#) web site. Run **Minolta9iSetup12.exe**.
5. Follow other on-screen prompts and click **Finish** when installation is complete.
6. Start the Geomagic application and verify that Minolta appears on the Plugins menu.
