Prerequisites

- This plugin requires a Geomagic product listed in the heading. To verify your current version, launch the application and select **Help -> About Geomagic ProductName**. The text box at the top of the dialog indicates the current software version.

Installation

1. Verify installation of Geomagic product listed in the heading.
2. Log in to Windows as a user with administrative privileges.
3. Verify installation of the newest drivers that come with Minolta equipment.
4. Run **MinoltaSetup7201.exe**.
5. On the Custom Setup screen, specify the Geomagic application (Studio and/or Qualify) with which you want to use the Minolta plugin.
6. Follow other on-screen prompts and click **Finish** when installation is complete.
7. Start the Geomagic application and verify that Minolta appears on the Plugins menu.

New Features

- Support for Minolta VI-9i non-contact digitizer.
- Support for photogrammetry on the Minolta VI-9i.
