

SEIMS Modernization Phase II: NCSBE- Legacy Application Conversion- Vendor Selected

Issuing Agency:	State Board of Elections
Solicitation Description:	SEIMS is comprised of both modern web-based and legacy applications. There is a critical need to upgrade these legacy applications as they: are client-based programs, are written in unsupported and deprecated programming languages, pose security concerns, are not intuitive, are not scalable, are difficult to manage/update, are operating system specific, and are on the verge of malfunctioning due to various updates to operating and other system resources
Date:	February 25, 2026
Purchasing Agent:	Lisa Berot-Marlowe

I. Vendor Selected

On February 25, 2026, North Carolina State Board of Elections Executive Director Sam Hayes announced that the agency has selected ReFrame Solutions as the winning vendor to modernize the State Elections Information Management System (SEIMS). At this point, the State Board will move forward to execute the contract with the vendor.
