LEARNING LADDERS PRESCHOOL - TALL TIGERS

Absences-708-354-9091

PLANTING UNIT

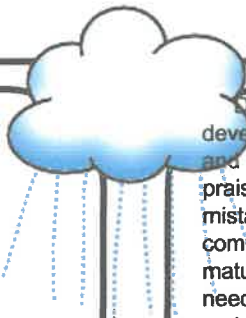

We will learn this month that April Showers bring May flowers! The children will try to make the connection of planting seeds and seeing the results by observation of roots and sprouts.

DINOSAUR UNIT

This month we will have a unit on dinosaurs. It is one of the most welcomed units your child will encounter.

We will explore different aspects of dinosaurs from plant eaters to meat eaters.

We will discuss why they are extinct. Could we fit a dinosaur in our classroom? Where did dinosaurs come from? We'll try to answer these questions through books, experimentation and more.

During this year your preschooler has been developing at a great speed, physically, mentally and emotionally. It is very important that you praise their efforts and try not to criticize their mistakes. They learn through mistakes. Do not compare them to friends or their siblings as they mature and grow at different rates. What you do need to do is build their confidence with love and understanding.

I do want to praise you, their parents, for an outstanding job you have done with them. I find myself never underestimating them. Also thank you for the opportunity and your understanding of taking over Ms. Kate's class. It's been my pleasure!

MYSTERY READER

If you think you would like to come one day as a mystery reader you may sign up on the sign up sheet on the bulletin board. What this entails is that you would come the last 15 minutes of class and bring a couple books (maybe your child's favorites) and read to the class. We tell them we're having a mystery reader come but not who it is!

End of the year school party and graduation will be at the Rec. Center on Friday, May 11th. More information will come!
