

# MEET THE TEAM HERE TO MAKE YOUR EXPERIENCE COMFORTABLE AND EASY

## UT Health Austin: Caring with a smile

At UT Health Austin we do doctor's visits a little differently if you haven't noticed yet. Instead of waiting rooms with magazines and cooking shows on mounted wall TVs in the corner, we welcome you into open lounge spaces with concierge staff waiting to greet you and walk you through the check-in process the second you step off the elevator. Our goal is to make your visit here easy, comfortable and a little less mundane. Meet our concierge staff, the first group of smiling faces you'll see when you come in for an appointment.

## LATEST NEWS AND STORIES

# FROM UT HEALTH AUSTIN

## NEW WOMEN'S HEALTH MAMMOGRAPHY AND IMAGING SERVICES NOW AVAILABLE

UT Health Austin has added 3D Mammography (Tomosynthesis) to our [advanced imaging services](#). According to the American College of Radiology, breast tomosynthesis (3D mammogram) has shown to be an advance over traditional digital mammography, with higher cancer detection rates and fewer patient recalls for additional testing. The higher sensitivity and lower patient recalls means less short-term anxiety for patients waiting for test results and may lead to earlier detection and more lives saved. 3D Mammography services are covered through UT Austin Health Insurance.

## TEXAS HEAT IS NO JOKE! LEARN ABOUT HEAT-RELATED ILLNESSES AND HOW TO STAY SAFE THIS SUMMER

Have you ever thought about how Texans are obsessed with the weather? Seriously, if you really think about it, it's brought up in at least one conversation almost every single day. But with good reason, the weather here can get pretty outrageous, especially during the summer. With temperatures hitting over 100 degrees, it's important to take measures to avoid heat-related illnesses especially if you work outside, play sports or spend a good amount of time in the sun. [Dr. Edward Bernacki](#), Executive Director of the [WorkLife Clinic](#), talks about common illnesses and how you can avoid them.

## **PATIENT STORY: MEET CHRIS, KNEE PAIN CAN'T KEEP HER FROM THE SLAYING THE GOLF GAME**

Chris is a 70-something sassy, young at heart and highly competitive woman who will actually school you at golf on any given day. She definitely wasn't about to let knee pain caused by severe arthritis keep her from the game either. Chris had a successful knee replacement with [Dr. Kevin Bozic](#) in the [Musculoskeletal Institute](#) in December 2017 and was back at full capacity by March for this year's golf season where she and her partner took no mercy in the tournaments. This is what we consider a good patient outcome here in our clinics, getting Chris back to doing what she loves.

## UT HEALTH AUSTIN IN THE COMMUNITY

Looking for ways to support the community with UT Health Austin? Come join us for upcoming events we will be at this year! This month we participated in and raised over \$3,500 for the annual [Walk to Cure Arthritis](#) held on June 2 by the Arthritis Foundation. We encourage you to come out and help us make a difference! Do you have a healthcare cause you're passionate about? Share your ideas about how we can get more involved with the community by emailing us at [uthealthaustin@austin.utexas.edu](mailto:uthealthaustin@austin.utexas.edu)
