Smart legal contracts: towards conflict prevention and resolution

Ph.D. Aura Esther Vilalta
Chair in Civil Law
Law and Political Science Dept.
Universitat Oberta de Catalunya (UOC).
Life cycle of a Smart legal contract
New challenges
There are a number of limits on the use of smart legal contracts.

Offer made by means of eplatforms and standard terms: Legal implications steaming from the applicable legal framework.

Double acceptance for SLC? Distinguishing between self-implementation and self-execution.

Implementation in the pre-stabilished terms, automatically: reduction of traditional conflicts.

Traditional remedies challenged: right of withdrawal vs inmutability

Payments with cryptocurrencies

Self-performance with inbound/outbound oracles

Disputes and execution: ODRs
Thank you
