Online Courts and the Future of Justice

• By default, cases will be conducted online unless there are compelling reasons to assemble in a courtroom.

• Is court a service or a place?

• Systems that are programmed vs. systems that learn

Access to Justice and AI

- Talking about A2J for a decade; now we’re doing something about it.
- AI offers great potential for A2J.
- When talking about AI, let’s make sure we’re all speaking the same language.
