Welcome to Ljubljana and to the 7th European Alcohol Policy Conference (7EAPC).

This year’s theme is Alcohol Policy for Sustainable Development.

The 7EAPC is hosted by the Ministry of Health in Slovenia and co-organised by the European Alcohol Policy Alliance. We would like to thank the Government of Slovenia, the World Health Organization - Regional Office for Europe, the Ministry of Health of the Russian Federation as well as Norway Grants for support.

The 7EAPC organisers are delighted to receive Health Ministers for Slovenia, Ireland, Luxembourg and Croatia, who will contribute to a high-level policy discussion and share information as well as good practices.

We are pleased with the presence of high level officials from most European countries, the World Health Organisation and the European Commission, who will share their knowledge and experience. It is also a great pleasure to receive top scientists, public-health professionals and civil society representatives from around the world.

The organisers hope you will find the two days full of stimulating plenary sessions and workshops, most of which will focus on developments within the sub-themes of alcohol inequalities and innovative approaches. The sessions will be raising awareness about the current burden of alcohol in Europe and the multiple health and social problems it creates, exploring ways in which cost-effective alcohol policies can contribute reducing inequalities in health, and to sustainable development of our societies. Synergies between the current works undertaken by both the European Commission and the World Health Organisation with regards to non-communicable diseases and alcohol policy will also be addressed.

The aim is that the presentations will provide insights and stimulate discussions, drawing on a range of disciplines and opening debate about implications for policy and practice, as well as strengthen networks, build capacity and stimulate action to prevent and reduce alcohol-related harm at all levels.

Finally, as a celebration of its 30 years of work towards preventing and reducing alcohol harm in Europe, the European Alcohol Policy Alliance (Eurocare) will be announcing the winner of the first edition of the European Award for Reducing Alcohol Harm (EARAH 2016).

Tiziana Codenotti
President, Eurocare

Vesna-Kerstin Petrič

CONFERENCE OVERVIEW

Tuesday 22 November
08:00 Registration
09:00 Opening
09:45 Setting the Scene: Alcohol, sustainable development and inequalities
10:45 Coffee break
11:30 Round table 1: Alcohol policy, politics and new developments
13:00 Lunch break
14:30 Reducing alcohol-related inequalities: what works
15:45 Poster session with coffee
16:30 Workshops
17:30 Social programme (Announcement of the European Alcohol Policy Award, light refreshments and entertainment)

Wednesday 23 November
09:00 Opening
09:30 Setting the scene: How does alcohol policy influence health determinants?
10:30 Coffee break
11:15 Roundtable 1: Health in all policies - does it work?
12:30 Lunch break
13:45 Roundtable 2 - Working with non-state actors
14:45 Workshops
15:45 Way Forward
16:15 Conference closure
TUESDAY 22 NOVEMBER

09:00–09:45 | Opening

Miro Cerar
Prime Minister
Republic of Slovenia

Milojka Kolar Celarc
Minister
Ministry of Health, Slovenia

Martin Seychell
Deputy Director-General
DG SANTE, European Commission

Tiziana Codenotti
President
Eurocare – European Alcohol Policy Alliance

Vladimir Poznyak
Coordinator of Organization Management of Substance Abuse Programme
World Health Organization

Moderator: Anja Hlača Ferjančič, Broadcaster

09:45–10:45 | Setting the Scene: Alcohol, sustainable development and inequalities

The link between alcohol related harm and sustainable development

Jürgen Rehm
Director of the Institute for Mental Health Policy Research Centre for Addiction and Mental Health (CAMH), Toronto

Professor and Chair of Addiction Policy in the Dalla Lana School Public Health at the University of Toronto. Leads the Epidemiological Research Unit, Clinical Psychology and Psychotherapy (Dresden University of Technology), as well as the WHO Collaborating Centre on Addiction and Mental Health.
Looking upstream: lessons from 40 years of alcohol policy research
Thomas Babor
Professor and Chair, Dept. of Community Medicine and Health Care School of Medicine, University of Connecticut.
Editor-in-Chief of the Journal of Studies on Alcohol and Drugs. PhD in social psychology from the University of Arizona and a MA in Public Health from the Harvard School of Public Health.

Alcohol policy as an investment for health - lesson learnt from coproducing benefits for health and development
Chris Brown
Manager of the Regional Program on Social Determinants and Health Equity WHO Europe
Currently leading the development of the first ever WHO European Health Equity Status Report, which will track the progress of social and economic policies on health and wellbeing in the European Region.

10:45–11:30 | Coffee break 🍵

11:30–13:00 | Round table: Alcohol policy, politics and new developments

Milojka Kolar Celarc
Minister
Ministry of Health, Slovenia

Marcella Corcoran Kennedy
Minister
Ministry of State for Health Promotion Ireland

Ivan Bekavac
Deputy Minister
Ministry of Health, Croatia

Tools for tackling alcohol consumption
Lars Møller
Programme Manager, Alcohol and Illicit Drugs WHO European Office, Division of NCDs and Life-Course
Lars Møller is a trained medical doctor and Public Health specialist. Since 2001 he has been working for WHO Regional Office for Europe and is the Programme Manager for Alcohol, Illicit Drugs and Prison Health.
NGOs: Essential partners in Alcohol Policy
Eric Carlin
Director, Scottish Health Action on Alcohol Problems (SHAAP), UK
Teaching Fellow at the University of Edinburgh. Final stage of PhD at University of London. Has managed over twenty years’ drug prevention and treatment charities and commissioning health services. Former Chair of the Drug Education Forum for England. Former Vice Chair of the United Nations NGO Committee on Drugs.

Moderator: Vesna-Kerstin Petrič
Head of Unit, Slovenian Ministry of Health Division for Health Promotion and Prevention of Non-Communicable Diseases
MSc in Public Health and Clinical aspects of Addiction, University of London, King's College, Institute of Psychiatry. Has a long history of working in alcohol policy area, a member of CNAPA at the EC and a co-chair of Coordinating Council of Global Network of WHO National Counterparts.

13:00–14:30 | Lunch break

14:30–15:45 | Reducing alcohol-related inequalities – what works

Implementing "best buy" measures in alcohol control in Russia
Konstantin Vyshinskiy
Senior Researcher, Department of Epidemiology, Research Institute on Addictions Federal Medical Research Centre for Psychiatry and Narcology n.a. V.Serbsky (FMRCPN), Russian Federation
Medical doctor, PhD in substance use epidemiology, working in the field of monitoring prevalence and patterns of alcohol and drug use and related policies.

Interdisciplinary approach in tackling hazardous and harmful alcohol use
Tadeja Hočevar
The National Public Health Institute of Slovenia
Communicologist, with MSc in Psychology, works at the Public Health Institute of Slovenia primarily focusing on promotion preventive programmes for healthy life style, smoking cessation and tackling hazardous and harmful alcohol drinking in adults.

How did Italy manage to reduce alcohol related harm?
Emanuele Scafatto
Professor, MD, MSc, Senior researcher, epidemiologist and gastroenterologist
Director of Population’s Health and Health Determinants Unit in the National Centre for Epidemiology, Surveillance and Health Promotion-CNESPS at the Istituto Superiore di Sanità. Director of the WHO Centre for Research on Alcohol and of the National Observatory on Alcohol (NOA).
Using mass media to change the conversation about alcohol

Colin Shevills
Director, Balance

Extensive public health (alcohol and tobacco) work experience. Former communications consultant with an international public relations agency.

Alcohol law enforcement

Wim van Dalen
Director, The Dutch Institute for Alcohol Policy (STAP)
MSc, Sociologist

President of the European Centre for Monitoring Alcohol Marketing (EUCAM) Secretary of the Dutch Foundation for Alcohol Enforcement Officers Former coordinator national alcohol campaign of the Ministry for Health, Welfare and Sports.

Moderator: Peter Rice
Chair, Scottish Health Action on Alcohol Problems (SHAAP), UK

He is one of Scotland’s leading medical voices on alcohol and has played a key role in influencing the Scottish Government on the twin areas of alcohol services and effective alcohol policy.

15:45–16:30 | Poster session with coffee

16:30–17:30 | Workshops

Coming out – going out

Organised by SHAAP

Large general population studies which include questions about health-related behaviours often do not ask about sexual orientation or gender identity. Increased use of alcohol by LGBT people may be a way of coping with structural factors, such as marginalisation, discrimination and stigma and an escape from perceived heterosexist social norms. Drinking may be seen as an aid to exploring sexuality, particularly when ‘coming out’. Clubs and pubs provide spaces for expression, apart from the hetero-normative world. Support services for alcohol problems are often not sensitive to the specific barriers that LGBT people face when seeing support and health professionals may have a lack of familiarity with LGBT social norms.

Speakers
- Eric Carlin, Director, SHAAP
- Oceana Maund, Scottish Transgender Alliance
**From research to action**
Organised by EASL and UEG

This workshop will cover recent and future research directions in alcohol-related disease. The first two speakers will focus on gastro-hepatological conditions. The third speaker will look at how the work of health researchers can contribute to evidence-based policy on alcohol harm and the challenges around this.

**Speakers**
- Prof Helena Cortez Pinto (EASL)
- Prof Stephen Haas, (UEG)
- Fiona Godfrey (EASL)

---

**Alcohol Marketing - revision of AVMSD as a window of opportunity**
Organised by Eurocare

The current provisions for commercial communications at the European level are undergoing revision. This workshop will outline the main shortcomings of the current EU framework for alcohol commercial communications and present advocacy for the coming months. Eurocare together with a group of public health organisations has been working together to improve the AVMSD. This workshop will present main asks and how participants can get involved to advocate for better marketing provisions.

**Speakers**
- Chair: Lauri Beekman, Secretary General NORDAN
- Wim van Dalen, Director, The European Centre for Monitoring Alcohol Marketing (EUCAM)
- Aleksandra Kaczmarek, European Alcohol Policy Alliance

---

**Child’s rights-based tools from alcohol marketing**
Organised by IOGT International

Children are the future. But children are also the present, and they have a right to special protection, here and now. The Convention on the Rights of the Child is the most widely ratified UN Convention. However, all too often decision-makers fail to protect the best interests of children. This workshop aims to provide tools for sound and innovative advocacy to promoting children’s well-being, for example through regulating alcohol marketing.

**Speakers**
- Co-Chairs: Kristina Sperkova, International President, IOGT International and Ben Murphy, Lecturer in Law, Law & NCD Unit School of Law and Social Justice, University of Liverpool

---

**Alcohol control policies in Turkey by Turkish Green Crescent Society**
Organised by Turkish Green Crescent

This workshop on Turkish Alcohol Control Policies will give an opportunity to those who would like to hear about Turkish experience in detail and to have the possibility to ask questions to experts. Past and Present of Turkish Alcohol Policies will be discussed in the workshop which is planned to be conducted under the cooperation of Turkish Green Crescent Society, Tobacco and Alcohol Market Regulatory Authority (TAPDK), Turkish Alcohol Policy Platform; and the relation between these policies and global alcohol control strategies will be mentioned. The relation between alcohol policies and the comparatively lower level of alcohol consumption in Turkey is another topic to be discussed in the workshop.

**Speakers**
- Tobacco and Alcohol Market Regulatory Authority (TAPDK) Özlem ATAK, Alcohol Control Implementations and the Role of TAPDK
- Turkish Alcohol Policy Platform: Nesrin ÖZKAN, TAPP: An Example of Civil Initiative on Alcohol Policy
- Turkish Green Crescent Society: Assistant Professor Perihan TORUN, Epidemiological Studies on Alcohol Use in Turkey
Global alcohol policy
Organised by World Health Organisation Geneva

This workshop will give an overview of the current status of alcohol policy developments globally, discuss the policy space available for governments in reducing harmful use of alcohol and identify potential next steps for boosting implementation of the WHO Global strategy to reduce the harmful use of alcohol. Case example from Thailand will be used to inform the discussion.

Co-chairs
- Vesna Kerstin Petrič, Ministry of Health Slovenia, Division for Health Promotion and Prevention of Non-communicable Diseases
- Vladimir Poznyak, Coordinator, Management of Substance Abuse, World Health Organization, Geneva

Speakers
- Dag Rekve, Senior Technical Officer, Management of Substance Abuse, World Health Organization, Geneva
- Orratai Waleewong, Researcher, International Health Policy Program (IHPP), Ministry of Public Health, Thailand

Joint Action on alcohol related harm (RARHA): Evidence based Action for the future
Organised by Sicad

This workshop includes (a) discussions on Joint Action on Reducing Alcohol related Harm - a joint effort without precedent; (b) new instrument for monitoring alcohol consumption and harm - SEAS findings and way forward; (c) Common metric and good practice principles for low risk drinking guidelines; (d) way forward in the deployment of early identification and brief interventions to curb risky drinking; (e) the RARHA Tool-Kit of good practice in alcohol interventions, and (f) a debate about the future of alcohol issues at the EU level.

Chair
- Manuel Cardoso, RARHA Executive Coordinator

Speakers
- Patricia Pissarra, RARHA Project Leader
- Jacek Moskalewicz, Leader WP Monitoring
- Marjatta Montonen, Leader WP Guidelines
- Emanuele Scafato, Co-leader WP Guidelines
- Sandra Rados-Krnel, Leader WP Tool-Kit

Alcohol and Health Inequalities
Organised by IAS

This workshop will (a) draw on evidence from research conducted by the Institute of Alcohol Studies to illustrate the complex relationship between alcohol and health inequalities, the ‘alcohol harm paradox’, (b) show how Scottish government data suggests that increasing the price of cheap alcohol can reduce health inequalities, and (c) provide an opportunity to discuss policy implications.

Speakers
- Katherine Brown, Director, Institute of Alcohol Studies
- Peter Rice, Chair, SHAAP

17:30 | Social programme: Announcement of the receiver of the European Award for Reducing Alcohol Harm (EARAH), light refreshments and entertainment.
WEDNESDAY 23 NOVEMBER

09:00–09:30 | Working with other sectors

Ewa-May Karlsson
Member, Committee of the Regions

Maja Makovec Brenčič
Minister, Ministry of Education, Science and Sport Slovenia

Moderator: Bernt Bull
Senior Advisor, Royal Ministry of Health and Care Services, Department of Public Health, Norway

Lydia Mutsch
Minister, Ministry of Health Luxembourg

09:30–10:30 | The link between alcohol policy and social determinants

**Alcohol and health inequalities - the causes of the causes**
Sir Michael Marmot
Professor of Epidemiology, University College of London, President of the World Medical Association.

Chairs the Commission on Equity and Health Inequalities in the Americas, set up in 2015 by the PAHO/WHO. Holds the Harvard Lown Professorship for 2014-2017, Prince Mahidol Award for Public Health 2015, Honorary doctorates from 17 universities.

**Facilitating alcohol policy to promote health across sectors**
David McDaid
Associate Professorial Research Fellow
Department of Social Policy, London School of Economics (LSE)

Has been advisor in a wide range of projects on mental health and public health in the UK, EC, WHO. Co-ordinator of the Mental Health Economics European Network, a member of NICE’s Public Health Interventions Advisory Committee since 2007. Co-Convenor of the Cochrane Campbell Economic Methods Group.
10:30–11:15 | Coffee break ☕️

11:15–12:30 | Roundtable 1: Health in all policies – does it work?

How Loi Evin is working and its challenges?
Franck Lecas
Head of Mission, Medical-Social Institutions and Loi Evin
ANPAA (Assocation Nationale de Prevention en Alcoologie et Addictologie), France.
Law graduate, MA law of health. Former advisor of medical social institutions federation (FEHAP).

Surrogate alcohol – containing methanol – still a problem in today’s Russia
Dirk Lachenmeier
Director, Chemical and Veterinary Investigation Agency Karlsruhe, Germany
State-certified food chemist, toxicologist, head of the department of plant-based foods and co-head of the nuclear magnetic resonance laboratory at Chemical and Veterinary Investigation Agency, Karlsruhe.

Could school based prevention be effective?
Sanela Talić
Secretary-General and Head of Prevention
Institute for Research and Development (UTRIP)
Pedagogue and a project manager for prevention, education and training programmes.

Working with homeless people in the need of alcohol treatment
Maria Luisa Marin Puig
Founder and President, Associació Rauxa
MD and PhD from the Faculty of Medicine of the Clinic and Provincial Hospital of the University of Barcelona. Collaborated and presented work at Socidrogalcohol, Spanish Society of Dual Pathology (SEPD), Street Medicine Symposium and Eurocare. Awarded the Medal Josep Trueta for health merit 2008, Catalonia.

Jean Todt (Video message)
UN secretary general’s special envoy for road safety
On 29 April 2015, the United Nations Secretary-General appointed Jean Todt as his Special Envoy for Road Safety.
Moderator: Jan Peloza  
President, Alcohol Policy Youth Network (APYN)  
Co-founder of No Excuse Slovenia, a national youth organisation encouraging positive social change and personal growth. Former President of the Alcohol Policy Youth Network, a World Economic Forum Curator of the Global Shapers’ Ljubljana Hub, an alternate board member of the WHO’s Partnership for Maternal, Newborn and Child Health and a One Young World Ambassador.

12:30–13:45 | Lunch break ☕

13:45–14:45 | Roundtable 2: Working with non-state actors

Vladimir Poznyak  
Coordinator of Organization Management of Substance Abuse Programme  
World Health Organization  
Psychiatrist by professional background with more than 20 years of experience in international work on public health aspects of alcohol and drug use, addiction medicine and clinical psychiatry. Responsible for a wide range of activities of the WHO Secretariat on prevention and treatment of alcohol and drug use, substance use disorders and behavioral addictions.

Olivier van Beemen  
Investigative journalist and writer  
Independent journalist and writer of the book Heineken in Africa. For ten years, he was a correspondent in Paris for several leading Dutch and Belgian newspapers and television.

Kristina Sperkova  
International President, IOGT International  
Active in the substance prevention field within civil society. Previously Secretary General of a European Youth Sobriety Organisation and Programme Manager, Strategic at the Swedish IOGT-NTO Board. Member of IOGT International since 2006.

Vesna-Kerstin Petrič  
Head of Unit, Slovenian Ministry of Health  
Division for Health Promotion and Prevention of Non-Communicable Diseases  
MSc in Public Health and Clinical aspects of Addiction, University of London, King’s College, Institute of Psychiatry. Has a long history of working in alcohol policy area, a member of CNAPA at the EC and a co-chair of Coordinating Council of Global Network of WHO National Counterparts.
Manuel Ribeiro Cardoso
General-Director for Intervention on Addictive Behaviours and Dependencies, Portugal
Deputy General Director of SICAD since 2012 and is the national representative at CNAPA and WHO National Counterparts for Alcohol Policy. He is the Executive Coordinator of RARHA - Reducing Alcohol Related Harm - Joint Action.

Moderator: Mariann Skar
Secretary General, Eurocare
European Alcohol Policy Alliance
Secretary General for Eurocare since 2008. Previously independent consultant in Brussels and Thessaloniki, seconded national expert in the European Commission, lecturer and head of nursing education at Tromsø University College.

14:45–15:45 | Workshops

**Alcohol and sports – advertising in 3 countries during Euro 2016**
Organised by IAS
In high profile contexts such as the Rio Olympics, Euro 2016, and through many other sporting events, including Formula One, the alcohol industry has increased its presence in a range of innovative ways, likely to increase public exposure, including of minors, to alcohol marketing.

**Speakers**
- Katherine Brown, Director, Institute of Alcohol Studies, United Kingdom
- Richard Purves, Research Fellow, University of Stirling, United Kingdom

**Safer party labels, an innovative approach for alcohol policy in nightlife settings**
Organised by VAD and DrogArt
The topic of the workshop will be safer party labels in nightlife settings. After the presentation of good practice there will be some group work where participants will discuss the role of safer party labels in the scope of alcohol policy, pros and cons of labels and talk about implementation of labels in participants’ community.

**Speakers**
- Jochen Schrooten Staff Member- Nightlife VAD - Association for Alcohol and Other Drug Problems, Belgium
- Manca Bizjak Leader of Specific Youth Interventions, DrogArt Association, Slovenia
**Harm to others**
Organised by World Health Organization Regional Office for Europe

Alcohol consumption can result in harm to others than the drinker. While a substantial part of this harm affects factors other than health, there are health effects of others’ drinking, such as from drinking by a mother during pregnancy on the newborn, or from drink–driving or violence to others. New data indicate that a high proportion of alcohol-attributable injury deaths are on harm to others. These data as well as data on alcohol harm to the unborn child will be presented at the workshop.

**Speakers**
- Professor Jürgen Rehm, Director of the Institute for Mental Health Policy Research, Centre for Addiction and Mental Health (CAMH), Toronto
- Dr Elena Varavikova, Leading researcher, Public Health Institute for Health System Organization and Information (CNIIOIZ), Moscow and The Chair of the Coordination council for the Alcohol harm and FASD prevention in the Russian Federation.

**Chair**
- Lars Møller, Programme Manager, Alcohol and Illicit Drugs, WHO European Office, Division of Noncommunicable Diseases through the Life-course.

---

**How do different disciplines talk about alcohol and how can we work better together?**
Organised by SHAAP

Discussion of how different academic disciplines consider alcohol-related issues, including exploring history, culture, pleasure and harms, and how we can work better together is timely and urgent.

**Speakers**
- James Nicholls, Director of Research and Policy Development, Alcohol Research UK, United Kingdom
- Eric Carlin, Director, SHAAP, United Kingdom

---

**Let it hAPYN - preventing and reducing alcohol related harm in youth organisations in Europe**

Let it hAPYN is a European Commission and Slovenian Ministry of Health financed project that was aiming at reaching a better overview of promising/best practices of alcohol interventions in youth organizations in Europe. It helped several youth groups to develop a more comprehensive approach to prevention. The workshop will present the results of the project and examples from involved countries.

**Speakers**
- Jan Peloza, President of the Monitoring Committee, No Excuse Slovenia and Alcohol Policy Youth Network
- Lukas Galkus, President, Alcohol Policy Youth Network
- Wim van Dalen, Director, Dutch Institute for Alcohol Policy
15:45–16:15 | Way forward

**Wide call for health relevant information on alcoholic beverage labels**

Marjatta Montonen  
Special Advisor  
National Institute for Health and Welfare, Finland

Long experience in the alcohol field, most recently as work package coordinator in Joint Action RARHA (Reducing Alcohol Related Harm) under the EU Health Programme. Has previously worked as seconded national expert with the European Commission and as researcher in Finland, specializing in communication aspects around alcohol.

**Slovakia Presidency**

Lubomir Okruhlica  
Chief Expert for Drug Dependencies, Ministry of Health, Slovak Republic  
Centre for Treatment of Drug Dependencies

MD, PhD. Expert for the Medicine of Drug Dependencies with the Slovak Ministry of Health. Slovak representative with CNAPA / EC / WHO. Member of the Scientific boards of the international Scientific Journals. Nyswander-Dole Award of the American Association Opiate Treatment Dependencies and Chimera award from EUROPAD.

**Welcome to Scotland 8EAPC (2018)**

Nicola Sturgeon (Video message)  
First Minister of Scotland

Before entering the Scottish Parliament as a regional MSP for Glasgow in 1999 she worked as a solicitor. She was sworn in as First Minister on November 2014.

16:15–16:30 | Conference closure – statement

**Vesna-Kerstin Petrič**  
Head of Unit, Slovenian Ministry of Health  
Division for Health Promotion and Prevention of Non-Communicable Diseases

**Mariann Skar**  
Secretary General, Eurocare, European Alcohol Policy Alliance
