Google

HIPAA Compliance with G Suite

Ensuring that our customers’ data is safe, secure and always available to them is one of our top priorities. To demonstrate our compliance with security standards in the industry, Google has sought and received security certifications such as ISO 27001 certification and SOC 2 and SOC 3 Type II audits. For customers who are subject to the requirements of the Health Insurance Portability and Accountability Act (HIPAA), G Suite can also support HIPAA compliance. Under HIPAA, certain information about a person’s health or health care services is classified as Protected Health Information (PHI). G Suite customers who are subject to HIPAA and wish to use G Suite with PHI must sign a Business Associate Agreement (BAA) with Google.
