- 11.8% of households experienced household crime
- A good death

**Key**
- Performance
- Direction of travel
- Exceeding ambition
- Improving
- Below ambition
- Declining
- Significantly below ambition
- Unchanged
- WAP - working-age population (16-64)
Who we are

- Greater Manchester Health & Social Care Partnership
  - NHS organisations and councils
  - Primary care
  - NHS England
  - Voluntary, community and social enterprise sector
  - Healthwatch
  - Greater Manchester Combined Authority
  - Greater Manchester Police
  - Greater Manchester Fire and Rescue Service
The journey so far

What we want to achieve

More GM children will reach a good level of development cognitively, socially and emotionally

More GM families will be economically active and family incomes will increase

Fewer GM babies will have a low birth weight resulting in better outcomes for the baby and less cost to the health system

More people will be supported to stay well and live at home for as long as possible

Fewer will die early from cardio-vascular disease (CVD)
Fewer people will die early from cancer
Few people will die early from respiratory disease
The journey so far

Our vision

“To deliver the greatest and fastest possible improvement to the health and wellbeing of the 2.8m people of Greater Manchester.”
The journey so far

**Vision:**
To deliver the greatest and fastest possible improvement to the health and wellbeing of the 2.8m people of Greater Manchester

**We will do this by:**
1. Creating a transformed health and social care system which helps more people stay well and takes better care of those who are ill
2. Aligning our health and social care system far more widely with education, skills, work and housing
3. Creating a financially balanced and sustainable system
4. Making sure the system remains clinically safe throughout.

- **Locality Plans**
  - 10x implementation plans
- **GM HSC Strategic Plan**
  - 1x implementation plan

£6bn mainstream investment
CCGs, Local Authorities & NHS England

£22bn Total public sector spending

£450m transformation investment

The journey so far

The building blocks of transformation

• Local care organisations coordinate delivery of integrated care in each borough
• Boroughs are made up of smaller neighbourhoods - GP practices working with other health and care professionals
• Standardisation across hospital sites and more care in the community, closer to home
• A single local commissioning function in each borough plus a GM Commissioning Hub
Service Delivery Footprints

- 30-50,000 population
- Co-terminus GP Clusters
- SDF Managers as convenors
- Named capacity for each SDF
- Schools
- Profile for each SDF
- Community Assets mapped
- Estates Strategy by SDF
- SDF multi-agency huddles
- Sub SDF neighbourhood teams in areas of greatest demand
General Practice at the heart Place Based Working

Strengthening joint working through co-location, workforce development & relationship building

Risk stratification, SDF Profiles and targeted interventions

Underpinned by agreed system behaviours e.g. One Team, Asset Based Approaches, early intervention

Connections & joint care planning through place based huddles

Wider public & voluntary sector services
- SDF Manager
- Schools
- Police
- Fire & Rescue
- DWP
- Housing
- MASH
- Live Well Key Worker
- Leisure
- Residential Care
- Substance Misuse
- Offender management (NPS,CIC)
- Employment interventions
- Others

GP Cluster

Integrated Community Services

Leisure

Self Help

Wider public services

Mental Health Services

Voluntary & Community Sector services

Start Well/Children’s Services

Housing

Drugs & Alcohol services

Community Link Workers

Link Workers connecting general practice to wider support
The journey so far

Devolution Difference

• Two years on, we’re already changing lives for the better.

Doing things differently –

• working together with staff, carers, public and partners, including voluntary, community and social enterprise groups to make Greater Manchester...

..a better place with healthier, happier people
Here are just a few of the changes....

- We’re creating **better, more joined up public services in the community** –
- co-designed with local people, including staff and carers
Starting a Movement

Creating dementia-friendly pharmacies

Ambitious new partnerships with Sport England, the GM VCSE and Faith sectors & the pharmaceutical industry
Supporting families to get children ‘school ready’

• to have strong social skills
• to cope emotionally with being separated from their parents
• to be relatively independent in their own personal care
• have a curiosity about the world and a desire to learn.

- Immunisation
- Speech & language
- Hygiene & toilet training
- Feeding and diet
- Motor skills
- Confidence and self-esteem
Oral Health Improvement:
Target - Reduce the number of children with tooth decay in some of the worst performing areas of GM by 2021

- Large scale evidence based intervention programme across 4 of our worst performing localities (Rochdale, Oldham, Bolton and Salford) for oral health in children under 5
- Free toothbrush and paste is now being provided to all young families through the health visitor contacts, totalling over 13,000 children per annum
- All 106 dental practices in the 4 localities are to seeking to increase coverage of the first dental check from 1st April, 50 of these dental practices have been commissioned to deliver enhanced provision, providing additional access capacity for c. 5,800 children
The GM Working Well (Early Help) Programme will develop and test an effective early intervention system available to GM residents in work who become ill and risk falling out of the labour market, or are newly unemployed due to health issues.

It will support up to 14,000 GM residents between March 2019 and 2022.

Funding for the programme totals £8 million secured from Health & Social Care Transformation Fund, DWP/DH Work & Health Unit, Reform Investment Fund and European Social Fund.

During 18/19 the new service will be tendered and the contract mobilised to begin delivery in March 2019.
Homelessness

Health & Social Care Partnership commitments to support Mayoral work on homelessness;

**GP registration**
Ensuring that the ‘right to register’ is universally applied

**Hospital discharge**
Refreshed hospital discharge policy with an aim that no one is discharged onto the street

**Outreach of health services**
Each locality is supported to develop a health outreach into temporary accommodation and onto the street

**Integrated commissioning of specialist services**
Support to facilitate joined up commissioning of services that support people with complex needs.

**Additional priorities:**
- Development of a Mental Health outreach pilot
- Implementation of the Homelessness Reduction Act / Duty to Refer
The journey so far

Here are some of the things we are focussing on in 2018/19:

• Improved services for young people with eating disorders

• Quicker access to mental health support for pregnant and new mothers

• Roll out “Baby Clear” Smokefree incentive scheme in communities where smoking rates are highest – supporting pregnant women to quit
• Greater Manchester is the world’s first region committed to the Daily Mile to support our children’s health.

• Nearly half of our Greater Manchester primary schools are already involved with the initiative, helping to achieve our 2020 ambition of 75% (180,000 children) regularly taking part every year by 2020
The journey so far

• More improvements to urgent and emergency care.

• We’re developing a more dementia friendly transport system.

• More progress towards ending all new cases of HIV within a generation.
The journey so far

Next Steps

• We are working with all health and social care organisations and partners in Greater Manchester to make sure these changes happen.

• We will continue to work closely with the Mayor of Greater Manchester on how all of the public services can help support and improve health and well-being.

• We will continue to develop our relationship with voluntary, community and social enterprise groups.

• The big challenges remain including finance and workforce shortages in key areas.
