## What's New?

**Navigation Global v6.14.5** contains the following updates:

- Modified Navigation to retrieve the vehicle settings (vehicle type and dimensions) from Verizon Connect servers for the vehicle that the driver has selected in the WorkPlan app. If no vehicle settings have been configured, Navigation uses the default type and dimensions defined for the customer account. Navigation caches the vehicle settings and refreshes them from the server every 3 hours.
- Modified the behavior of the 'Change Defaults' setting to work independently for each setting screen.
- Corrected an issue that prevented iso-latin accented characters from remaining in the search bar of the Navigation app's location search.
- Made performance, stability, and usability improvements.

## Release Date and Time

Updates for the Navigation Global v6.14.5 mobile application will be released to the Google Play and iTunes Store in June 2018.

## Get Help

Use the following resources to download the NavGE mobile application and to get help using or troubleshooting NavGE.

<b>NavGE app download</b>	<a href="#">Google Play store</a> (Android) or the <a href="#">Apple App store</a> (iOS)
<b>NavGE mobile app help</b>	Sign in to the app, then tap  (Menu) > Help.
<b>Help website</b>	<a href="https://help.telogis.com">https://help.telogis.com</a>
<b>Troubleshooting</b>	Submit a <a href="#">support request</a> .
<b>Best practices</b>	Check the Resources page on the Verizon Connect for best practices and insider tips for fleet management, navigation, and routing.
