## What's New?

**Navigation v6.18.1** contains the following updates:

- Added a new setting called "Current Speed and Limit Display Always On" on the **Settings > General** screen. When this setting is set to "On", the current speed limit and the current speed are always displayed on **Guidance** and **FollowMe** views. When set to "Off", the current speed limit and current speed are displayed on those views only when you exceed the speed limit. This feature is set to "Off" by default.

- Improved highway exit information. When in **Guidance** view, highway numbers and names are now displayed, instead of just the names; for example, "Hwy-401 / Hwy of Heroes" rather than "Highway of Heroes".
- The Navigation user interface, including spoken directions, is now available in German and French. You can change your preferred language on the **Settings > General** screen.
- Corrected a fault that prevented markers that used Access Paths from being regarded as valid, which in turn caused routes that included these markers to fail.

- Made performance, stability, and usability improvements.

## Release Date and Time

Updates for the Navigation v6.18.1 mobile application will be released to the Google Play and iTunes Store in May 2019.

## Get Help

Use the following resources to download the NavGE mobile application and to get help using or troubleshooting NavGE.

<b>Navigation app download</b>	<a href="#">Google Play store</a> (Android) or the <a href="#">Apple App store</a> (iOS)
<b>Navigation mobile app help</b>	Sign in to the app, then tap <b>Menu</b>  <b>&gt; Help</b> .
<b>Help website</b>	<a href="https://help.telogis.com">https://help.telogis.com</a>
<b>Troubleshooting</b>	Submit a <a href="#">support request</a> .
<b>Best practices</b>	Check the <a href="#">Resources</a> page on the Verizon Connect website for best practices and insider tips for fleet management, navigation, and routing.
