- **AvinoCort by Anova Health—15% off**

AvinoCort is a food supplement and pharmaceutically standardized source of peptide/amino acid growth factors in endogenous form. These peptides are not available in modern diets. Growth factors are made of clusters of low-molecular weight peptides, which are quickly and easily assimilated and transported into the body to their specific receptor sites. AvinoCort is concentrated in the amount of growth factors it contains. This is why only 100 mg are required per capsule to have a tremendous effect.

Regular Price: \$38.00 | **Sale Price:** \$32.30
