

# MedPro™ Whey Complete

## BERRY

High quality New Zealand whey protein from pristine herds in New Zealand!

### About whey protein

Whey protein is a naturally complete protein that provides essential and non essential amino acids to support healing, muscle building, muscle and tissue recovery, energy and the immune system.\* Whey protein is a great source of branched chain amino acids for muscle support, precursors for glutathione production as well as alpha-lactalbumin and immunoglobulins for immune system support.\*

### MedPro™ Whey Complete is:

- Micro-filtrated
- Rich in branched chain amino acids
- Great tasting and easily mixed making it the perfect base for any health shake or smoothie
- Combined with 2 g of Fibersol-2™ brand fiber to support regularity\*

### Recommended for:

- Active Lifestyles
- Athletes, body builders and people who exercise
- Low calorie diets as adding whey protein to a mid-day snack or beverage provides healthy energy and may help control food intake at the next meal
- Restricted diets

### Athletes, Body Builders and Active Lifestyles

Branched Chain Amino Acids benefit muscle metabolism and provide energy directly to muscle tissue.\* The body requires higher amounts of branched chain amino acids during and following exercise as they are taken up directly by the skeletal muscles versus first being metabolized through the liver, like other amino acids. Low BCAA levels contribute to fatigue and they should be replaced in one-hour or less following exercise or participation in a competitive event.

### Low Calorie or Restricted Diet

Each serving of **MedPro™ Whey Complete** contains 21 grams of added protein from New Zealand whey protein concentrate and 2 grams of added fiber from Fibersol-2™ (a water-soluble digestion resistant fiber). It's a delicious, low calorie, low fat, low carbohydrate drink mix supplement that is sugar free! **MedPro™ Whey Complete** is a great addition to any weight management program, not as a meal replacement, but as a source of energy and to curb appetite.\* Many find their appetite at mealtime is reduced when they used our **MedPro™ Whey Complete** as a mid-morning or mid-afternoon snack.\*

### Immune System Support\*

Whey protein naturally contains precursors for glutathione production. Glutathione helps defend the body against free radicals that can challenge or weaken the immune system.\* Natural protein fractions such as alpha-lactalbumin and immunoglobulins help strengthen the immune system.\*

### Supplement Facts

**Serving Size 1 Scoop (33.822 g)**

#### Amount Per Serving

Calories	130
Calories from Fat	15
Total Fat	1.5 g
Saturated Fat	1 g
Cholesterol	50 mg
Sodium	60 mg
Total Carbohydrates	9 g
Sugars	2 g
Dietary Fiber**	2 g
Protein	21 g

Vitamin A	98 IU
Calcium	105 mg
Iron	0.33 mg
New Zealand Whey Protein Concentrate	28 g
Digestion Resistant Maltodextrin (Fibersol-2™ brand)	2 g
Stevia rebaudiana Leaf Extract	100 mg

Other ingredients: natural berry flavor, guar gum, red beet powder (color), sunflower lecithin.

### Typical amino acid profile per serving.\*\*\*

Isoleucine	1.470 g
Leucine	2.394 g
Lysine	1.974 g
Methionine	0.546 g
Phenylalanine	0.735 g
Threonine	1.554 g
Tryptophan	0.441 g
Valine	1.344 g
Histidine	0.420 g
Alanine	1.134 g
Arginine	0.588 g
Aspartic Acid	2.373 g
Cysteine/cystine	0.609 g
Glutamic Acid	3.906 g
Glycine	0.441 g
Proline	1.365 g
Serine	1.134 g
Tyrosine	0.735 g

### Typical protein profile per serving.\*\*\*

a-Lactalbumin	2.142 g
B-Lactoglobulin	7.644 g
Glycomacropeptide	3.129 g
Immunoglobulin G	0.672 g
Bovine Serum Albumin	0.252 g
Protease Peptone 5	0.693 g
