

The Evolution of Disease & Biotherapeutic Drainage® for Individualized Medicine

Three-Day Course

**October 14-16, 2016 (Fri.-Sat.-Sun.)
Toronto, ON**

Presented by:
Dr. Pierre Tondelier MD

(based on the teachings of Dr. Gérard Guéniot)

Individualized medicine is at a critical position in the evolution of global healthcare in both mainstream and alternative medicine. The notion of “one size fits all” is no longer appropriate. Using integrated tools for assessments, in-depth patient evaluation, therapies and treatments in individualized medicine, physicians and healthcare professionals are able to better predict disease risk, prevent

disease development, and manage disease treatment more efficiently, keeping patients healthier and active longer.

The goal of this three-day course is to provide a thorough understanding of nature cure and drainage, from the roots of natural medicine, and its relevance to each individual’s immunity and terrain with attention to Miasms.

Dr. Tondelier will discuss the notion of terrain, the nature and cause of disease, based on the teachings of Dr. Gérard Guéniot, and will address the essence of energy, as well as the connection between body, soul and spirit from the aspect of Traditional Chinese Medicine. He will explore the principles of drainage based on the individual’s biochemistry, the effectiveness of treating acute and chronic conditions and the importance of the emunctories.

Dr. Tondelier will also discuss the importance of the first 12 years of a child’s life and the impact each developmental stage has on the physical, emotional, mental and spiritual maturity of the individual, and the difference between male and female development during this critical stage.

In addition, Dr. Tondelier will **briefly discuss** the origins, methods of preparations and clinical applications of Gemmotherapy, Phytotherapy, Oligo-elements and Tissue Salts.

CONTINUING EDUCATION CREDITS

- ELIGIBLE FOR CONO CATEGORY B CREDITS (ON)
- 19.5 CNPBC HOURS (BC)
- 19.5 SANP HOURS (SK)
- 19.5 MNA HOURS (MB)

KEY LEARNING HIGHLIGHTS

- An intelligent approach to treating the modern patient
- The notion of terrain; introducing a symptomatic and therapeutic approach to Miasms, Temperaments and Constitutions
- The importance of emunctories
- The laws of maturation
- Gain a better understanding of the different levels of nature cure and drainage
- Methods of preparations and clinical applications of the UNDA Numbered Compounds, Phytotherapy, Gemmotherapy, Oligo-Elements and Tissue Salts
- Learn how to restore and maintain health and well-being

CLINICAL DISCUSSION INCLUDES:

- GI Health
- Respiratory Health
- Cardiovascular System
- Skeletal and Articular Systems
- Endocrine Health
- CNS System and more . . .

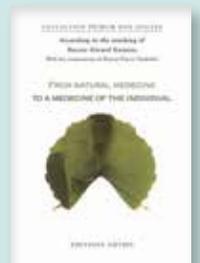

Homeopathy, Phytotherapy, Gemmotherapy, Oligo-elements and Schüssler Tissue Salts are modalities used in traditional medicine. Homeopathic uses are based on the *Materia Medica* and are not supported by clinical trials. Seminars, teleconferences and webinars are for educational purposes only and are intended for licensed health care practitioners. These therapies are not substitutions for standard medical care. Practitioners are solely responsible for the care and treatment provided to their own patients. The information provided by speakers in this educational program, together with any written material, do not necessarily represent the view of Seroyal and are not intended as medical advice.

The evolution of healthcare

From Natural Medicine to Medicine of the Individual

Written by Dr. Pierre Tondelier

All recipients will receive a copy of this exciting publication. Packed with 30+ years of evolved medical learning from a global leader in the world of natural medicine. Enhance your understanding of the terrain through a therapeutic approach. Attain better patient results and uncover strategies and techniques of Biotherapeutic Drainage® that can be incorporated immediately into your practice.
