

NEW FOR 2016

Participants enrolled in the BTD Certification Program receive up to 20% discount on curriculum seminar registration fees.

BIOTHERAPEUTIC DRAINAGE® PRACTITIONER CERTIFICATION

Elevate Your Practice and Secure Optimal Patient Results!

Seroyal is proud to introduce the Biotherapeutic Drainage® Practitioner Certification program.

Certification requires practitioners to complete 8 Biotherapeutic Drainage® courses (6 mandatory and 2 elective) over a 4 year period (see reverse for details). Upon successful completion of a written examination, practitioners will receive the Biotherapeutic Drainage® Certification and be included on the soon to be established Seroyal Biotherapeutic Drainage® Certification Patient Referral listing. Please contact your Seroyal representative for enrollment details.

LEARNING OBJECTIVES

Upon completion of the 119 hours of education practitioners will learn how to:

- Stimulate, activate and regulate drainage via the emunctories, and understand the importance of rebalancing the homeostatic systems
- Implement nature cure and drainage philosophy, and understand their relevance to each individual's immunity and terrain, with attention to miasms
- Access the emunctories through deep intracellular and extracellular elimination, without suppression and in a non-invasive manner
- Understand the role of a variety of drainage therapies including: UNDA Numbered Compounds, Gemmotherapy, Oligo-Elements, Tissue salts, Organotherapy, and GENESTRA BRANDS nutritional products

PRACTITIONERS WILL ALSO HAVE A THOROUGH UNDERSTANDING OF:

- How to build the foundation and framework for treatment regimes addressing the root cause of disease
- The process and evolution of disease in relation to Miasm
- The difference between drainage, detoxification and depuration
- Why physiology prevails over pathology
- In depth patient evaluation/assessment techniques for superior and sustained treatment outcomes
- Practical application of nutritional supplements

As a continuing medical education provider, Seroyal is dedicated to providing healthcare professionals with the tools, knowledge and skill to identify, treat and reverse the negative effects of the modern lifestyle on their patients.

What is Biotherapeutic Drainage®?

The burden of health problems that plague modern society result from weaknesses in the body's physiological foundations as a result of poor nutrition, stress overload, environmental toxins and more. We have the potential to naturally eliminate toxins - depending on the body's toxic load. Biotherapeutic Drainage® is a long-lasting and effective way of restoring health to the body as it works at an intracellular and extracellular level, facilitating the emunctories to remove blockages while respecting natural physiology. Opening the emunctories to discharge toxins helps to support physiological functions, encouraging the body towards homeostasis. The goal of the Biotherapeutic Drainage® Practitioner Certification program is to equip practitioners with a foundation of skills and knowledge of Biotherapeutic Drainage® to elevate their practice and secure optimal patient results.

BIO THERAPEUTIC DRAINAGE® PRACTITIONER CERTIFICATION

Curriculum Requirements

PROGRAM TITLE	PRESENTER	FORMAT	REQUIREMENTS
LEVEL 1			
The Evolution of Disease and Biotherapeutic Drainage® for Individualized Medicine	Dr. Robert Abell, Dr. Pierre Tondelier	3 day program	✓ MANDATORY
Biotherapeutic Drainage® and UNDA Numbered Compounds	Dr. Robert Abell, Dr. Dickson Thom	7 part teleconference series or 2 day program**	✓ MANDATORY
Clinical Applications of Gemmotherapy, Oligo-Elements, Plexes and Schüssler Salts	Dr. Robert Abell	7 part teleconference series	✓ MANDATORY
Differential Clinical Diagnosis Using Biotherapeutic Drainage® for Optimal Patient Outcomes OR Improve Clinical Outcomes and Elevate your Practice: Incorporate Gemmotherapy, Phytonutrients, Oligo-elements, Tissues Salts and Other Biotherapeutics**	Dr. Mikhael Adams	2 day program	✓ MANDATORY
<i>MTC 1</i> Clinical Patient Evaluation: Miasms, Temperaments, Constitutions	Dr. Robert Abell	2 day program	✓ MANDATORY
LEVEL 2			
Reclaim the Brain: Assessment & Treatment of Neuro-Developmental & Neurological Disorders	Dr. Robert Abell	2 day program	✓ ELECTIVE
Clinical Applications Addressing Viruses & Pandemics in the 21 st Century OR Natural Support for Lyme Disease, Viruses & Vaccines**	Dr. Mikhael Adams	2 day program	✓ ELECTIVE
LEVEL 3			
<i>MTC 2</i> Advanced Clinical Patient Evaluation & Treatment: Miasms, Temperaments & Constitutions (<i>Pre-Requisite MTC 1</i>)	Dr. Robert Abell	2 day program	✓ MANDATORY
Advanced Workshop: Assessment and Treatment of Autoimmune Diseases Using Advanced Biotherapeutic Drainage® Techniques	Dr. Dickson Thom	2 day program	✓ ELECTIVE
Chronic Degenerative Disease...The Next Step	Dr. Mikhael Adams	2 day program	✓ ELECTIVE
Successful Case Management of Chronic Disease Workshop	Dr. Dickson Thom	2 day program	✓ ELECTIVE

- Each program may be counted once only.
- Hours of education must be completed over 4 years

**Choice of either program
