TAMPA (CBS Tampa) — Talk about pain at the pump! Some Florida drivers are spending nearly \$6 a gallon to fill up their gas tanks.

According to GasBuddy.com, motorists are shelling out \$5.89 for a gallon of regular gas at a Shell station in Lake Buena Vista, topping out at \$5.99 a gallon for premium. It doesn't get better at a Suncoast Energy station in Orlando, where drivers are paying \$5.79 for a gallon of regular.

After a year-long reprieve from rising foreclosures, the numbers are going up again.

One in every 624 U.S. households received a foreclosure filing in January, up 3 percent from the previous month, according to a new report from RealtyTrac. Foreclosure activity froze in many states in 2011, due to processing delays after fraud, or so-called "Robo-signing," were uncovered in the fall of 2010. The thaw is now on.

President Obama's 2013 budget is the gift that keeps on giving—to government. One buried surprise is his proposal to triple the tax rate on corporate dividends, which believe it or not is higher than in his previous budgets.

Mr. Obama is proposing to raise the dividend tax rate to the higher personal income tax rate of 39.6% that will kick in next year. Add in the planned phase-out of deductions and exemptions, and the rate hits 41%. Then add the 3.8% investment tax surcharge in ObamaCare, and the new dividend tax rate in 2013 would be 44.8%—nearly three times today's 15% rate.

Keep in mind that dividends are paid to shareholders only after the corporation pays taxes on its profits. So assuming a maximum 35% corporate tax rate and a 44.8% dividend tax, the total tax on corporate earnings passed through as dividends would be 64.1%.

More Proof

- I just recently met up with one of my former clients that I had not talked to in about 5 years and gave her the book. She really liked it and she went onto my personal Safe Money Millionaire website. Now we're transferring over a small IRA. But while meeting with her, I found out that she had a large 401k, and based on the principles in the book, she wants to do an in-service withdrawal and move it into an indexed 101 Policy.
- If you're looking for an opportunity to join a good marketing company -- *because that's what we really are. We're not advisors, we're marketers* -- I think the Safe Money Millionaire program is the way to go.

1. Get new appointments in 2-14 days
2. Take apps in 30 days
3. Get commission in less than 60 days

More Proof

Marvin started implementing and saw results FAST. In his own words:

“I got the appointment within the first week. Went and saw the client on Tuesday, returned on Thursday and walked out with an app and check. It happened pretty fast.”

What about Compliance?

- The book has been reviewed by our compliance department and been approved. *(However, your name is NOT on the book so you don't need to worry about that.)*
- **Our content is about client education**, not promises of 'rates of return' or comparisons between other investments. We also follow the guidelines laid out by our insurance companies in all our communications. (Full disclosures, never misleading about what the product is, etc.)
- PLUS, the Financial Education in the Workplace Seminar has already been approved by one of the national's largest life insurance carriers. However...

What product do we sell?

- We believe in first finding out what the prospect needs -- what problem are we trying to fix? *Only then can we prescribe the product.* Is it Indexed Universal Life? Whole Life? Annuities? A combination?
- We sell all three depending on their planning needs.
- The Safe Money Millionaire book is NOT exclusive to one specific product. It's designed to educate about the concepts of "Financing Yourself To Wealth" and creating a safe foundation to grow your wealth.

Ultimately this gives you the ability to take control of your business.

- **You will KNOW** what to do each morning when you wake up to get more appointments.
- **You will HAVE** the tools to generate the income you desire.
- **You will CREATE** the lifestyle and wealth you want and deserve.

So how much is all this worth?

\$25,000 Per Month Just For Overhead

- Two full time copywriters
- Two graphics designers
- Two full-time developers
- Two full time media buyers
- Video studio and video-editor, along with all the necessary equipment and software.

But more importantly...

Realistically, if you get just 2 or 3 of these systems in your business, you'll add another 2-3 appointments per day.

(Rick Heaverly got 5 leads in one day)

(James got 25 calls in 1 day)

Maybe That's Far Fetched:

Can you get 1 new client per week?

Average ticket isn't huge, but you keep fishing long enough you eventually get the big catch.

Average ticket \$3900

1 new deal per week $\$3900 \times 4 = \$15,600$
