

WORKER PRESENCE TRAILER

The Worker Presence Flashing Warning Trailer provides a portable platform to display active work zones or worker presence signage.

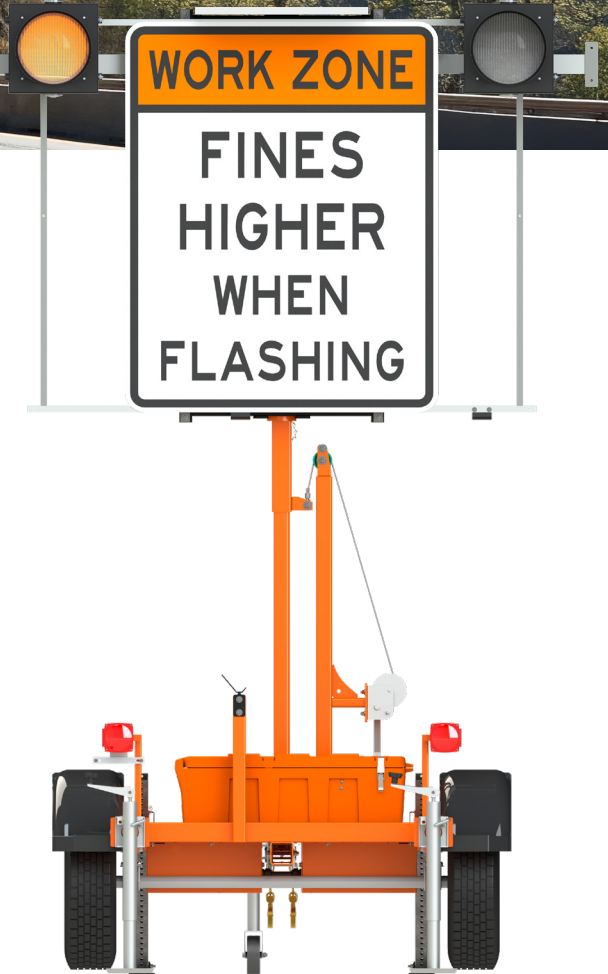

This trailer is easy to set up and runs autonomously thanks to its solar panel and rechargeable battery power system.

Two 12-inch beacons flash on and off in an alternating (wig-wag) pattern, alerting motorists that a work zone is active, or that workers are present ahead (when flashing).

Thanks to Ver-Mac's innovative V-Touch Controller and JamLogic® remote fleet management software, management is simple and easy.

ACTIVATION METHODS:

- **LOCALLY: V-TOUCH CONTROLLER (AT THE TRAILER)**
- **SCHEDULED: PRE-DEFINED DATES/TIMES**
- **REMOTELY: JAMLOGIC® SOFTWARE ON YOUR LAPTOP, SMARTPHONE OR TABLET**
- **AUTOMATIC: USING CONNECTED WORKER MODULES**

APPLICATIONS

- Active Work Zone Warning (Higher Fines)
- Worker Presence Warning
- Truck Entry Warning trailer

FEATURES & BENEFITS

INCREASED SPEED COMPLIANCE

Studies show that awareness of worker presence leads drivers to significantly reduce speeds and improve lane discipline.

STEALTH TECHNOLOGY

Maintenance-free batteries
Anti-theft hidden battery compartment

SAFE & ROBUST TRAILER DESIGN

Tongue wheel jack and rear jack for safe and easy setup
Controller located away from the road
Rugged indexed rod mast brake

EASY TRANSPORTATION & SETUP

Innovative solar panel and trailer design for easy transport and setup in most applications

FLASHING BEACONS TRAILER

Strong visual cue that directs motorists' attention to the sign, informing them of higher fines or worker presence

V-TOUCH CONTROLLER

Integrated 4G modem
10-year cell plan included

OTHERS FEATURES

V-SYNC WI-FI TECHNOLOGY

Using your smartphone to activate safely away from traffic

AMBER INDICATOR LAMP AT THE BACK

Allows the operator to monitor units in real time from a safe distance

SOLAR PANEL CHARGING SYSTEM

Solar-powered battery units are designed to run autonomously year-round

JAMLOGIC® SOFTWARE

Enables system monitoring, reporting and alerts

DURABLE, EASY TO USE

SUPERIOR POWDER COATING FINISH

Impact, humidity, salt spray, and rust resistant

2 FRONT ADJUSTABLE STABILIZER LEGS AND 2 REAR LEVELING SWIVEL JACKS

For stabilization and easy transportation

TRAILER (MEETS NCHRP CATEGORY 4 STANDARDS)

Highly visible and equipped with a sight tube aiming device

RUGGED INDEXED ROD MAST BRAKE

The sign can be positioned at 240° (15° increments)

JAMLOGIC® FLEET MANAGEMENT SOFTWARE

- View your equipment in a list and GPS map view
- View your battery voltages, see if beacons activated or not
- Watchdog timer to prevent system lockups and automatic powercycling of local system components
- Get the date/time of all collected traffic, system health, and maintenance information
- Activation log report
- Organize your equipment in folders (by customer, location, project, etc.)
- Receive email or text alerts – optional (low battery, cellular failure, etc.)
- Data plan with modem

SPECIFICATIONS

DISPLAY

- Warning beacons (meet C&MS 731.06 standards)
- 2 yellow 12-inch LEDs
- Flashes at least 50 times per minute /alternating flashing pattern
- Illumination period of each flash (min. of 1/2 and a max. of 2/3 of the total cycle)

DIMENSIONS & WEIGHTS

- Total weight (approx.): 1080 lbs / 490 kg
- Operating width: 110 in. / 2.796 m
- Traveling width: 70 ^{3/8} in. / 1.787 m
- Operating length: 131 in. / 3.324 m
- Traveling length: 141 ^{1/2} in. / 3.594 m
- Traveling height: 106 in. / 2.699 m
- Operating height: 148 in. / 3.759 m

WARRANTY

- 1 year on complete trailer
- 2 years on electronic components manufactured by Ver-Mac
