## 2. Other relevant corporate matters

- Shareholders: Any foreign person (individuals or legal entities) can be a shareholder of a company organized in Argentina. In order to participate in local companies in Argentina, foreign companies must register before the local Public Registry of Commerce, which involves the filing of hard copies of organizational documents of the foreign company and the appointment of a representative in Argentina. Both individual and legal entities shall obtain a foreign Tax ID before local Tax Authorities.
- Directors: Depending on the type of entity, one or more of the board members must be Argentine residents. Non-Argentine board members will need to obtain a local Tax ID before local Tax Authorities and pay social security taxes in connection with their position as directors.
- Permits: Depending on the company's purpose and industry in which the company's activities are carried out, certain permits might be necessary to operate.

## 3. Outline of Argentine Tax Regulations (notwithstanding the application of Double Tax Treaties)

Please find below a general description of the main taxes applicable to companies in Argentina. This should be analysed on each specific case as exceptions or special regimes may apply.

### **NATIONAL TAXES:**

Corporate Income Tax (CIT): Resident companies are subject to CIT on a worldwide basis. The income tax law has a progressive tax

rate, according to the following criteria (for fiscal year 2023):

- a) if the net income of the company does not exceed ARS14.3 million in the fiscal year, a 25% tax rate applies;
- b) if the net income exceeds ARS14.3 million but is less than ARS143 million, a fixed amount of ARS3.6 million must be paid, plus a tax rate of 30% over the income exceeding ARS14.3 million; and
- c) if the net income exceeds ARS143 million, a fixed amount of ARS42.2 million must be paid plus a tax rate of 35% over the income exceeding ARS143 million.

Withholding tax in dividends: A withholding tax of 7% applies to the payment of dividends.

Value Added Tax: the general VAT rate for Argentine local transactions is 21 %. For certain goods or services could be 10,5%. There are also exemptions that may apply. For example, exports are levied at a 0% VAT and exporters can be reimbursed for the local VAT paid related to its exportation.

Bank credits and debits tax: credits and debits on local bank accounts are subject to a 0.6 % tax rate on the debits and a 0.6 % tax rate on the credits. In general, depending on the kind of activity of the local entity certain exceptions may apply. There is an additional 1.2% tax rate for cash withdrawals, except for SMEs (Small and Medium Size entities). In general, this tax generates a tax credit of 33% that can be used to offset income tax or its instalments.

Customs duties: Import/export of "goods" are taxed at different customs rates according to each tariff position (identification for customs purposes).

### Social security taxes (SST):

**Employers Contribution for SST:** The social security tax rate for employers which activities are related to commerce or services and who are not a SMEs<sup>1</sup> is 20,40% and for the rest of employers the tax rate is 18,00%. The health care tax rate is 6%. So, it is 26,4% for the first case and 24% for the second one and it applies on the gross salary.

**Employee Payment for SST:** Please note that the local company shall withhold the relevant social security taxes from the employee's salaries which represent approximately 17% of the gross salary, health care included. Also, the company shall withhold the income tax from the employee's salaries if applicable.

### **TAXES ON SHAREHOLDERS:**

Capital gains tax (Direct or Indirect Sale): In broad terms, direct or indirect sale is taxable at a 15 % on the net gain (sale price minus acquisition cost) or 13.5% of the total sale price (gross price of the operation). There are some requisites to comply with for the indirect capital gains to be taxed. If there is a seller located abroad and in a non-cooperative jurisdiction the tax rate will be higher (35% net gain or 31,5% gross price of the sale).

Wealth tax on shares: A 0.50 % tax rate on the book value of the equity held in the local company. The local company pays this tax on behalf of the shareholders.

Transfer Pricing Rules: Transfer pricing rules in Argentina follow the OECD Model, based on the principle that transactions between an Argentine company and related companies based outside of Argentina (or with companies located in non-co-operative, low- or no-tax jurisdictions) must be done in arm's length conditions. Argentina's rules include the five

methods from the OECD model, but in addition to the five OECD methods, Argentina has an additional rule, called the 'sixth method', which in general applies to the import and export of commodities made through an international related intermediary or an intermediary located in a non-co-operative jurisdiction or low-tax jurisdiction.

Thin Capitalization Rules: In line with international standards (OECD guidelines), interest on financial debts (excluding, as a consequence, debts generated by acquisitions of goods, leases and services related to the company's business) owed to related parties (Argentine residents or not) will be deductible subject to certain quantitative limitations. The deductibility limitation on the interests does not apply to financial entities, certain financial trusts, or when a WTX (withholding tax) applies in relation to the interest paid, among others.

CFC Rules: In broad terms, local residents in Argentina having participations on foreign entities that don't pay taxes abroad in the case-by-caser jurisdiction (despite the fact that the relevant jurisdiction has a corporate tax regulated) or local residents that have direct or indirect participations of 50% or more on entities that obtain passive income in certain ratio, or local residents having control over trust or foundations located abroad have to monitor this particular set of rules on a case by case basis to determine if they have or they have not to recognize income from such entities or trusts on an accrual basis.

Tax Havens and non-cooperative jurisdictions: The Income Tax Law includes different tax effects when a jurisdiction qualifies as tax haven or non-cooperative. Such effects should be analyzed on a case by case basis, but in general the qualification of a jurisdiction for those concepts are as follows: 1- countries, territories or tax regimes that establish a

<sup>1</sup> SME: small and medium-sized enterprises.

corporate income tax rate that is lower than 15% will be considered low or no tax jurisdictions 2- jurisdictions that do not have a tax Information Exchange Agreement or a Double Taxation Treaty with broad clauses of Information Exchange in force will be considered non-cooperative jurisdictions. The Income Tax Implementing Decree includes a list of “non-cooperative jurisdictions” that can be review on the official website: <https://www.afip.gob.ar/jurisdiccionesCooperantes/no-cooperantes/periodos.asp>

#### **LOCAL TAXES:**

Turnover tax: A 3 % average tax rate on gross income. Such rate may be increased to 5 % in accordance with the company’s annual gross income. Note that such tax rate may also vary depending on the activity developed. Exemptions may apply.

Stamp tax: A 1 % tax rate over the value of written contracts. This tax may not apply if the instrumentation of the document is made by offer/acceptance letters.

Municipal tax: city councils apply different taxes which usually amount to 0,5% or 1 % of the gross income of the company.

#### **4. Outline of Labor Regulations.**

Argentina has a clear pro-employee labor legislation.

The usual practice in Argentina regarding labor agreements is to use verbal agreements (as opposed to written agreements) for indeterminate duration, which main conditions (wages, initial date, etc.) are registered with the tax authorities and in the company’s registry. Lack of registration of the employees is considered labor fraud.

Wages must be paid by way of a wire transfer to the employee’s bank account.

Dismissals require paying a severance compensation, which amounts to one monthly wage per year of seniority or fraction exceeding 3 months, in addition to one or two monthly wages of as pre-notice.
