Leveraging Knowledge to Manage Your Data Risks

CYBERSECURITY

[CISA Issues Four More Industrial Control Systems Advisories](#)

On August 22, 2023, the Cybersecurity and Infrastructure Security Agency (CISA) issued four more [advisories](#) related to industrial control systems. The advisories are applicable to four different industrial control products, explain the risk of the vulnerability (e.g., “successful exploitation of these vulnerabilities could allow an attacker to compromise availability, integrity, and confidentiality of the targeted devices”), and how to mitigate the vulnerabilities. [Read more](#)

ENFORCEMENT + LITIGATION

[Advocate Aurora Health to Pay \\$12.25 Million Settlement for Data Breach Class Action](#)

In October 2022, Advocate Aurora Health notified three million individuals of a data breach resulting from its use of tracking pixels on its website for tracking website visitor activity. Now, this month, Advocate Aurora Health settled a class action stemming from that data breach for \$12.25 million. [Read more](#)

DATA PRIVACY

[Seven States Have Upcoming Privacy Laws](#)

State privacy laws are changing rapidly in the U.S. Here are summaries of seven new state laws that have been enacted and go into effect in the next few years. We anticipate that more state legislatures will continue to enact privacy laws to protect consumers due to the absence of a federal privacy law. [Read more](#)

[Landmark Decision by United Arab Emirates DIFC in CCPA Data Protection Adequacy Decision](#)

Earlier this month, the Commissioner of Data Protection of the Dubai International Financial Centre (DIFC), a financial free-zone in the United Arab Emirates (UAE), issued the first adequacy decision regarding the California Consumer Privacy Act (CCPA), which recognizes the CCPA as an equivalent to the DIFC Data Protection Law (DIFC Law No. 5 of 2020, as amended the DIFC DPL). ARTIFICIAL INTELLIGENCE

[CISA Urges Secure by Design for AI Tools](#)

CISA released a [blog post](#) last week reminding software designers that artificial intelligence (AI) tools are software and that they “must consider the security of the customers as a core business requirement, not just a technical feature, and prioritize security throughout the whole lifecycle of the product, from inception of the idea to planning for the system’s end-of-life.” [Read more](#)

DRONES

[FAA and Industry Leaders Discuss Responsible Use of AI and Machine Learning for Drone Technology](#)

At the recent Federal Aviation Administration (FAA) Drone Symposium (co-hosted by AUVSI), FAA Deputy Regional Administrator Deb Sanning discussed the impact of autonomy and AI, human/machine integration, and the strategies for gaining public trust in autonomous systems, like drones. Sanning discussed this topic along with Brendan Groves from Skydio; Taylor Lochrane, the Deputy Director for Science and Technology at DOT; Lauren Haertlein from Zipline; and Margaret Nagle from Wing. PRIVACY TIP #370

[Check Your Privacy Settings Frequently](#)

Installing new phone apps are a part of daily life, but it's far too easy to accept the default privacy settings without looking at what you're actually agreeing to. Awareness of the data that apps are collecting starts with checking your privacy settings frequently. Learn more in today's Privacy Tip. [Read more](#)

Recent Events and News:

- Data Privacy + Cybersecurity Team chair [Linn Freedman](#) and member [Kathleen Porter](#) were among the 78 Robinson+Cole lawyers selected by their peers for inclusion in [The Best Lawyers in America® 2024](#). Linn and Kathy were both ranked in the area of Privacy and Data Security Law. Linn was also listed in the area of Commercial Litigation. In addition, Team member [Kathryn Rattigan](#) was listed in the fourth edition of *Best Lawyers: Ones to Watch® in America* in the area of Privacy and Data Security Law. The "Ones to Watch" recognition is given to attorneys early in their careers for their outstanding professional excellence in private practice in the U.S. Best Lawyers® awards are compiled by conducting exhaustive peer-review surveys in which tens of thousands of leading lawyers confidentially evaluate their professional peers
- Data Privacy + Cybersecurity Team chair [Linn Freedman](#) and member [Jennifer Driscoll](#) co-authored the article [COVID-19, Generative AI And The "Lost Generation" Of Lawyers](#), published in the August 2023 issue of *Mealey's Litigation Report: Cyber Tech & E-Commerce*.
- Data Privacy + Cybersecurity Team chair [Linn Freedman](#) presented an advanced session of the seminar "Cybersecurity for Tax Professionals" as part of the Internal Revenue Service's "2023 IRS Nationwide Tax Forum" in San Diego, California, on August 22, and Team member [Kathryn Rattigan](#) will present at the Forum being hosted on August 29 in Orlando, Florida. The sessions are focused on recent cyber threats and cyber hygiene tips to prevent, protect, mitigate, respond to, and remediate cyber incidents and intrusions. The sessions include a discussion about the opportunities and threats of increased connectivity and provide effective solutions to manage cybersecurity risk, protect personal information, respond to an attack and/or breach, and comply with IRS requirements and other laws and regulations governing data security.
