

Robits Safety Contract

General Rules

- Know all the safety procedures for your school and classroom.
 - Follow clothing and safety rules set by your teacher.
 - Be aware of fire evacuation routes.
- Listen to any instructions your teacher provides before starting work.
- Show up ready to work on the robot.
 - Wear clothes that are safe to work in.
 - Wear a mask and safety goggles if they are required.
- Keep all food and beverages away from the work area.

Robot Rules

- Inspect electronics for any signs of damage.
- Make sure the robot is a safe distance away from you and anything that could be knocked over, broken, etc. before turning it on for testing.
- Announce to your team or anyone working close to the robot that it will be turned on.
 - Never work on the robot when it is on.
- Alert your teacher if any parts are broken or are getting worn out.
- Do not run the robot for too long.
 - If part of the robot gets hot, shut it off immediately and let it cool down.
 - If part of the robot is smoking, sparking, or giving off a strange smell, immediately turn it off and find out why.

Handling Tools

- Follow the rules of use for every tool, and treat them with care.
- Check that both the tool and the hardware being used are undamaged.
- Watch between the handles of sharp tools to avoid accidental pinching or cutting.

Accidents and Injuries

- Report any accident or injury to the instructor immediately, no matter how trivial it may appear.

Agreement

I, _____ (your name), have read and agree to follow all the safety rules above.
