

**[Flinn Scientific Student Safety Contract](#)** - Flinn Scientific's Student Safety Contract is an excellent document containing many safety rules that are to be followed in a lab. This course does not require you to follow certain safety procedures presented by the contract, but it is useful to consult.

**[SawStop](#) | [SawStop Hot Dog Demo](#) | [SawStop.com](#)** - This video produced by SawStop showcases a hotdog being used to highlight the effectiveness of their product. Though you should not be using a table saw in this course, this video demonstrates why it's important to be safe.

**[Flirting With Disaster - The Importance of Safety: Crash Course Engineering #28](#)** - This video from Crash Course explains the importance of safety very effectively and remains entertaining. It goes into even more detail than Lesson 3 does and uses many historical examples of situations where safety rules were not adhered to.

**[Hand and Power Tool Safety Training from SafetyVideos.com](#)** - This video gives a very thorough explanation of how to be safe while using hand tools and power tools. It goes into more detail than Lesson 3 and is an incredible resource.
