

DOWN FORCE®

PRESSURIZED FOR ALL CONDITION WRITING

Why Pressurized?

If your work or activities include outdoor environments or wet surfaces, Down Force is the perfect writing companion. By using an innovative pressurized plunger system, Down Force allows for smooth, consistent writing at any angle on dry or wet surfaces.*

Featuring a sturdy metal spring clip, this durable and lightweight design will even float! Retractable and refillable with black ball point ink in 0.7mm fine point. Down Force by Pilot — *the pen for extreme conditions.*

Smooth Writing at any
ANGLE, WET or DRY.*

Ideal For:

- Engineers, military personnel, lab technicians, pilots, mechanics, law enforcement, environmental services, coaches, nurses, doctors, administrators
- Marking maps and making field notes
- Documenting lab work and patient charts
- Flight logs and aviation maintenance checklists
- Team rosters and training performance evaluations
- General office use and special projects

*Optimum wet condition performance achieved on water-resistant paper.
