REASONS TO STAND

Add Years to Your Life

Research indicates that sitting more than 3 hours a day cuts your life expectancy by 2 years. Sedentary behavior (referred to as Sitting Disease) is in the same category as smoking and obesity.

Peter Katzmarzyk - Louisiana State University's Pennington Biomedical Research Center

Burn More Calories

A UK study found the average calories burned while sitting was 2.6 calories per minute compared to 3.3 calories while standing.

Dr. John Buckley - University of Chester

Improve Your Posture to Relieve Back and Neck Pain

People who sit more are at a greater risk for herniated lumbar disks, as well as strained cervical vertebrae in the neck leading to permanent imbalances.

Jay Dicharry - Director of the REP Biomechanics Lab in Bend, Oregon

Reduce Your Risk of a Heart Attack

Multiple studies have shown that people who sit for most of the day are 54% more likely to die of a heart attack, no matter how much you exercise or how well you eat.

Peter Katzmarzyk - Louisiana State University's Pennington Biomedical Research Center

Increase Productivity

A study found that an employer who provided employees with good ergonomic furniture and training in how to use it realized about \$367 per day more income per employee (a 17.8% productivity gain) than did a control group.

Tom Albin - Office Ergonomics Research Committee, Inc.

Sleep Better

Sitting for long periods of time slows blood circulation, which causes fluid to pool in the legs. This can ultimately cause restlessness and lead to loss of sleep.

James Levine - Director of Obesity Solutions at Mayo Clinic

- Large 36" or 31" wide by 23" deep work surface accompanied by 35" or 30" wide by 14" deep removable keyboard tray
- Work surface supports up to 34 lbs and keyboard tray up to 6 lbs
- Keyboard tray allows for plenty of space on work surface for monitors, work materials, and other necessities
- Keyboard tray includes two slots for holding phones, tablets, and writing utensils
- Through-hole at rear of work surface to accommodate a monitor mount. Frame design in back allows for most clamp-style mounts as well
- Durable scratch resistant work surface
- 3 Year Limited Warranty
- Product Weight:
DCX760 - 49 lbs / DCX710 - 46.6 lbs

DC002 MONITOR MOUNT WITH DUAL AND SINGLE MONITOR APPLICATIONS

The Victor Monitor Mount optimizes traditional or standing desks by freeing up work surface space and placing monitors at an ergonomic height.

- Components for both single and dual monitor applications included for choice of monitor setups
- Adjust the height of monitors to an ergonomically correct position within a 12.5" range
- Monitor brackets can tilt and pan to each user's preference and pull forward and back from the user
- Two methods for attachment - through-hole mounting or clamp attachment - makes the DC002 easy to install
- Compatible with desks up to 1" in thickness, as well as Victor, Varidesk, Flexispot, and many other standing desk converters
- Standard VESA mounting holes on monitor required

Available as an additional purchase for DCX760 / DCX710 / DCX610

Option A Single Monitor Mount

Option B Dual Monitor Mount

DC450

ELECTRIC DUAL MONITOR STANDING DESK

One-touch Easy Tap Technology adjusts height effortlessly

Monitor heights can adjust independently

Monitors can rotate and tilt for extra customization

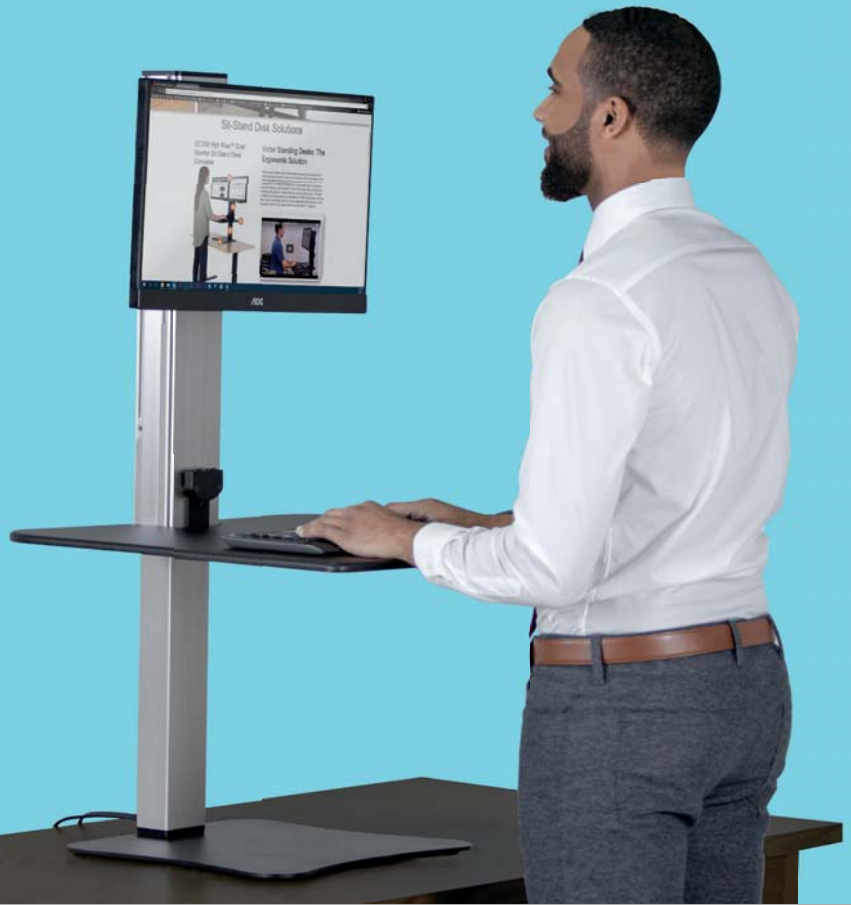

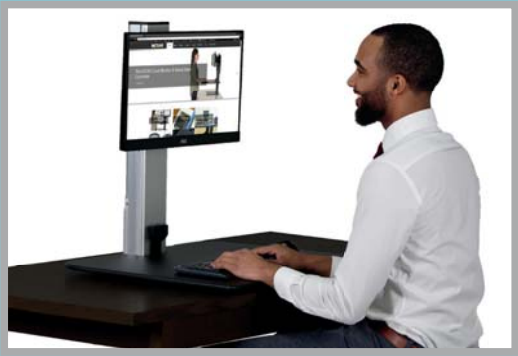

Safety Sensor detects objects under the work surface

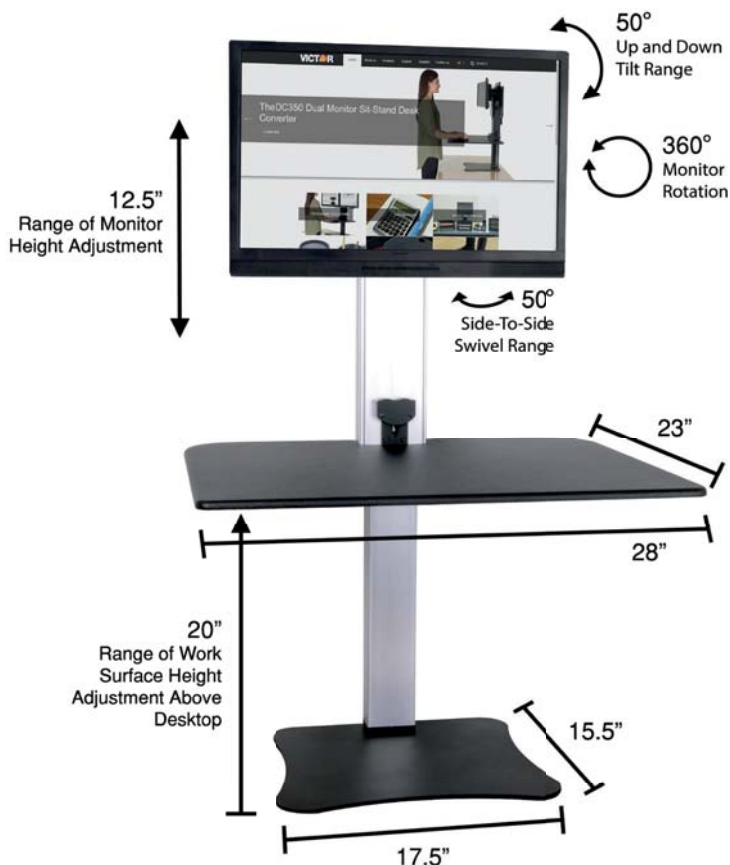

FEATURES

- One-touch Easy Tap Technology and powerful electric motor make height adjustment smooth and simple with the touch of a button
- Work surface raises up to 20" above the desk surface
- Monitor heights can be adjusted independently from the work surface within a 12.5" range
- Monitors can be set at different heights independently of each other
- Supports two VESA compatible monitors up to 27" wide and 12.5 lbs each
- 28" wide by 23" deep work surface holds up to 20 lbs
- Safety Sensor stops work surface movement when obstacles are detected underneath while lowering unit
- Sits on desk or table without mounting, clamping, or attachment required
- Heavy steel base provides sturdy foundation without taking up a lot of surface area
- Felt pads on the bottom of steel base allow unit to be easily repositioned and protects desk from scratches
- 3 Year Limited Warranty
- Product Weight: 44.5 lbs

DC400

ELECTRIC SINGLE MONITOR STANDING DESK

FEATURES

- One-touch Easy Tap Technology and powerful electric motor make height adjustment smooth and simple with the touch of a button
- Work surface raises up to 20" above the desk surface
- Monitor height can be adjusted independently from the work surface within a 12.5" range
- Supports any size VESA compatible monitor weighing up to 25 lbs
- 28" wide by 23" deep work surface holds up to 20 lbs
- Safety Sensor stops work surface movement when obstacles are detected underneath while lowering unit
- Sits on desk or table without mounting, clamping, or attachment required
- Heavy steel base provides sturdy foundation without taking up a lot of surface area
- Felt pads on the bottom of steel base allow unit to be easily repositioned and protects desk from scratches
- 3 Year Limited Warranty
- Product Weight: 39.5 lbs

COMPLETE MONITOR PERSONALIZATION

Monitors can be raised to custom heights independently from the work surface

Applies to electric units:
Dual Monitor DC450
Single Monitor DC400

ADJUST MONITOR HEIGHT IN THREE EASY STEPS

STEP 1

Twist knobs to loosen
monitor bracket

STEP 2

Raise monitor to desired
height level

STEP 3

Tighten knobs to hold
monitors in place

DC350

Single Monitor DC300

Supports any size monitor weighing up to 11 lbs.

MANUAL DUAL MONITOR STANDING DESK

FEATURES

- Gas piston allows you to easily raise your work surface up to 15.5" above the desk surface with the twist of a knob
- A second gas piston allows you to adjust the height of your monitors separately from the work surface by 6"
- An additional 6" of adjustment on the monitor bracket allows up to 12" of monitor height customization
- Supports two VESA compatible monitors up to 24" wide and 11 lbs each
- 28" wide by 23" deep work surface holds up to 20 lbs
- Sits on desk or table without mounting, clamping, or attachment required
- Heavy steel base provides sturdy foundation
- Felt pads on the bottom of steel base allow unit to be easily repositioned and protects desk from scratches
- 3 Year Limited Warranty
- Product Weight:
DC350 - 43.3 lbs / DC300 - 39.5 lbs

RAISE AND LOWER THE WORK SURFACE IN 3 SIMPLE STEPS

1) Twist knob to loosen

2) Raise to desired height

3) Twist knob to tighten in place

EASILY ADJUST WORK SURFACE AND MONITOR HEIGHTS

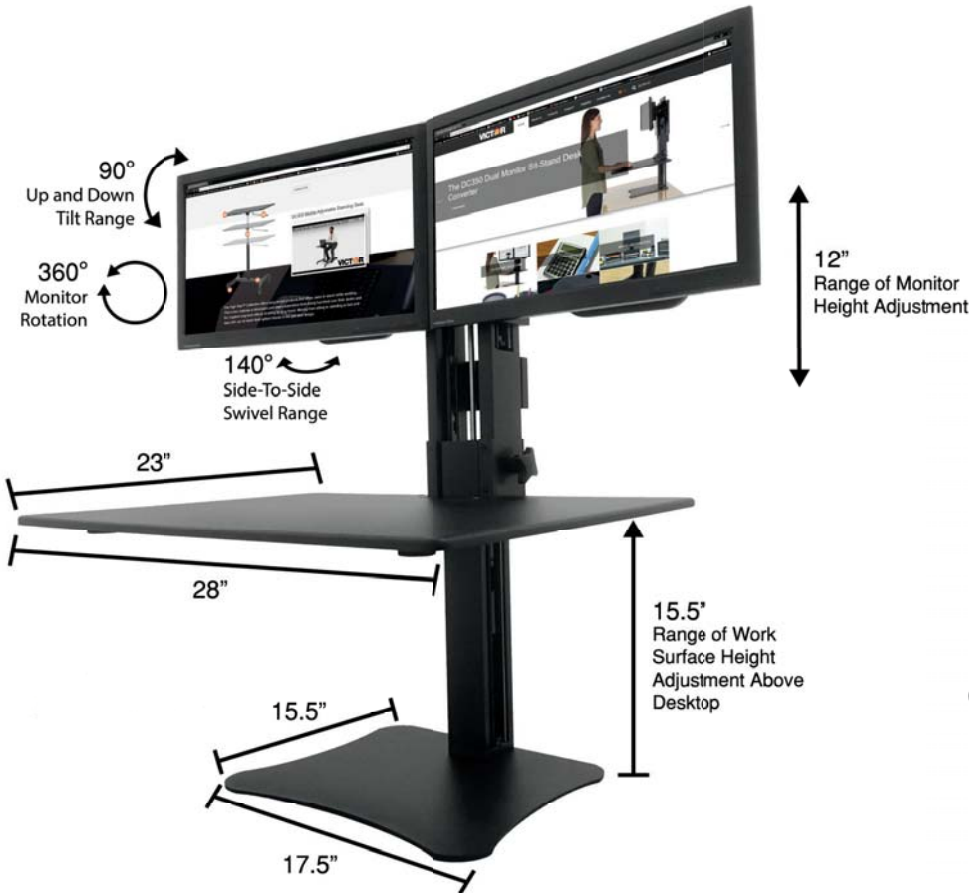

Easy-turn knob and gas piston make height adjustment effortless

Use 2nd knob to adjust monitor height separately from work surface

Monitors rotate and tilt for extra customization

DC240

HEIGHT ADJUSTABLE LAPTOP STAND WITH STORAGE CUP

DC240B

DC240W

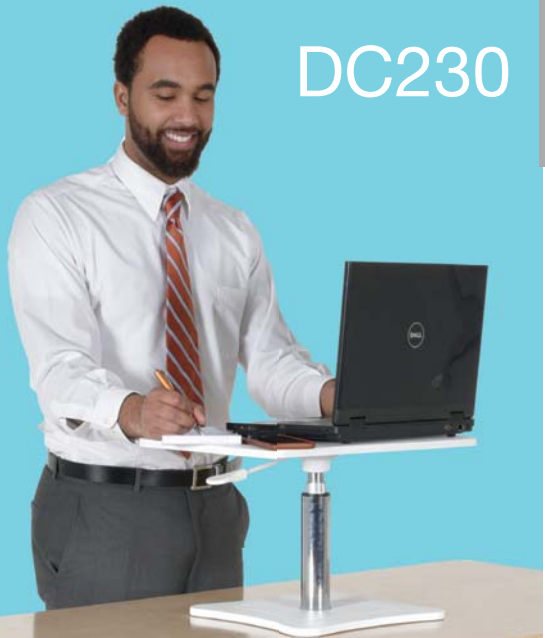

FEATURES

- Enables stand-up operation of laptop computers or tablets at a comfortable ergonomic height **(does not lower to sitting position)**
- Storage cup for pens, pencils, smartphones, or beverages
- Piston allows for height adjustments from 12" to 15" above the desk or tabletop

- 24" wide by 15" deep work surface holds up to 20 lbs
- Large work surface is made from durable wood with a scratch resistant PVC coating
- Sturdy stabilizing base prevents tipping
- 3 Year Limited Warranty
- Product Weight: 10.25 lbs

DC230

HEIGHT ADJUSTABLE LAPTOP STAND

DC230B

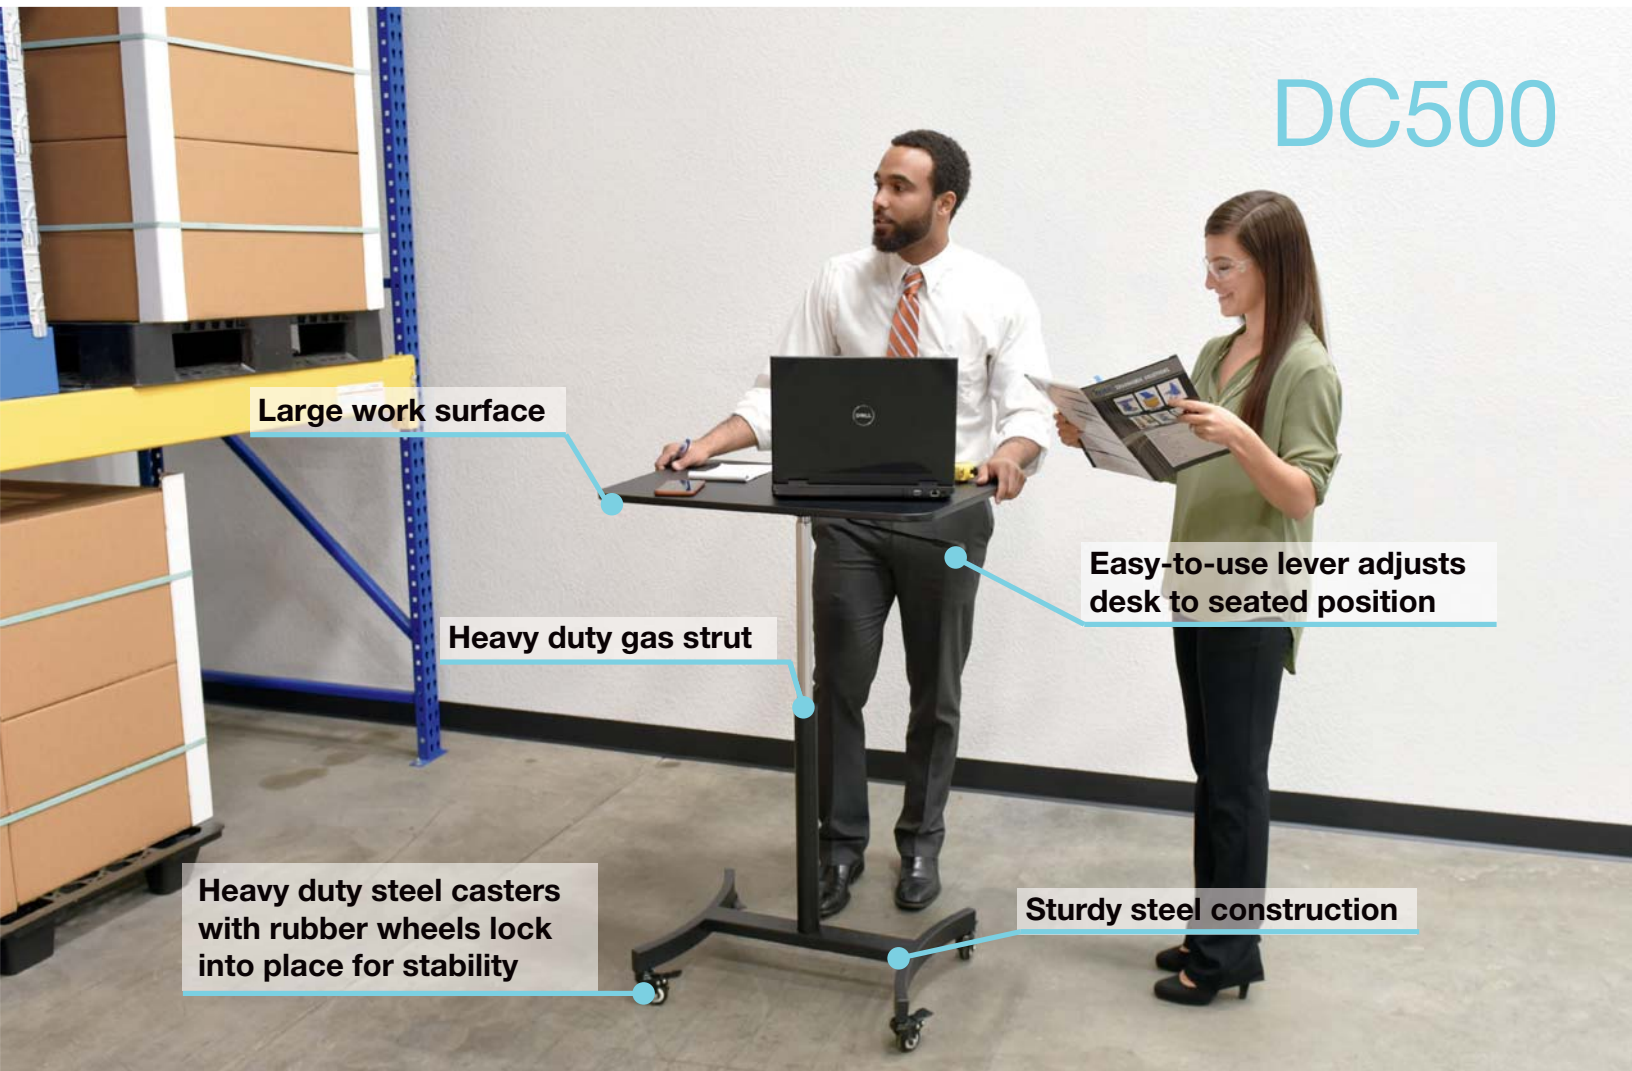

DC230W

FEATURES

- Enables stand-up operation of laptop computers or tablets at a comfortable ergonomic height **(does not lower to sitting position)**
- Piston allows for height adjustments from 12" to 15" above the desk or tabletop
- 21" wide by 13" deep work surface holds up to 20 lbs

- Large work surface is made from durable wood with a scratch resistant PVC coating

MOBILE ADJUSTABLE STANDING DESK

The Mobile Adjustable Standing Desk gives you the ergonomic benefits of a standing desk plus the mobility of a cart. Wherever you need to go, your desk can follow. Rising to 44" and lowering to the standard sitting height of 29", it is the perfect ergonomic solution to your adjustable desk needs.

FEATURES

- Gas piston lever allows you to easily raise the desk height between 29" and 44" with the squeeze of a lever
- 31" wide by 22" deep work surface supports up to 40 lbs
- Wheels lock to create stability or unlock to allow the desk to be moved around
- Strong steel frame prevents tipping
- 3 Year Limited Warranty
- Product Weight: 25.5 lbs

STAND UP DESK CONVERTERS

DC200 Adjustable Stand Up Desk Converter

- Transforms any sit-down desk into a stand-up desk **(does not lower to the sitting position)**
- Gas piston and lever allow for adjustments from 12" to 16.75" above the desk or tabletop
- Work surface rotates to promote more movement, but can be locked if no movement is preferred
- 28" wide by 23" deep work surface
- Supports 40 lbs near center (20 lbs recommended)
- Heavy steel base prevents tipping
- 3 Year Limited Warranty
- Product Weight: 24.5 lbs

Compatible with DC050

DC100 Fixed Stand Up Desk Converter

- Transforms any sit-down desk into a stand-up desk **(does not lower to the sitting position)**
- Optional height extenders allow for height adjustment from 12.5" to 14.5" above the desk or tabletop
- Open storage shelf for papers under work surface
- 28" wide by 23" deep work surface
- Supports up to 40 lbs
- Sturdy black wood construction
- 3 Year Limited Warranty
- Product Weight: 13.1 lbs
- *Compatible with DC050*

DC050 Monitor Riser

- Raises monitor to ergonomic level
- Optional height extenders allow for height adjustment from 6.5" to 7.5" above the desk or tabletop
- Open shelf for papers
- 27" wide by 11.5" deep work surface
- Sturdy black wood construction
- 3 Year Limited Warranty
- Product Weight: 8.1 lbs
- *Compatible with DC100 and DC200*

Perfect Addition to the DC100 or DC200!

STANDING DESK ACCESSORIES

Steppie Balance Board (ST570)

The Healthy Alternative to Anti-Fatigue Mats!

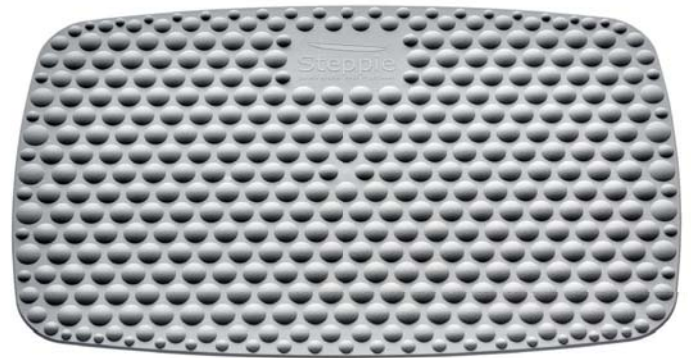

- Balance board provides a fun and healthy way to stand at work
- Simple, low impact movement engages the stabilizing muscles of your back, core, hips, legs and ankles
- Improves posture and balance while increasing standing stamina and joint mobility
- Increases focus, attention and overall productivity at work
- Easy to move into place or slide out of the way
- Use with the Steppie Soft Top (ST590) for maximum benefits
- Product Weight: 5 lbs

Steppie Soft Top (ST590)

The Perfect Accessory for Your Steppie Balance Board

- Reflexology mat provides the body with constant movement to help improve circulation while standing
- Increase energy and metabolism
- Helps to relax muscles and relieve the body of pain and tension
- Use with the Steppie Balance Board (ST570) for maximum benefits
- Product Weight: 1.5 lbs

Steppie products can be used alone or combined to create a dynamic standing experience!

WHY VICTOR?

Victor Technology is committed to offering reliable standing desk products at an affordable price. Our products are designed to have ease of use and work with any standard size desk. Featuring a wide range of products from laptop stands to standing desk converters with built-in monitor mounts, the Victor High Rise™ Collection offers a solution to your standing desk need.

PERSONALIZED ERGONOMIC CUSTOMIZATION

Don't limit yourself to a work surface height that isn't quite right. Rather than having only a few height settings, our work surfaces and monitors can be raised to any level within their adjustment range, maximizing the ergonomic benefits of standing at work.

ENGINEERED TO LAST

Since 1918, Victor has stood by the durability of the products we make. Each Victor High Rise™ Collection model comes with a 3 year limited warranty.

RELIABLE CUSTOMER SERVICE

Our customer service team is not outsourced to a third party. When you call to address questions or issues with your standing desk converter, you will be helped by a member of our team at our corporate headquarters in America.

EASY ASSEMBLY

Victor High Rise™ Collection products require only light assembly, with all the required tools included and online instructional videos for extra help.
