Job # 29680

W/O # 19937788

May 31, 2016

Last week your truck finished assembly and was released to begin initial and third party pump testing. At the time for this report it was staged for post-test. In the next several days it will finish post-test and begin final product evaluation, which is part of the quality process. Any remaining option content will be installed ahead of release for final inspection and customer acceptance. This is your last scheduled weekly progress report.
