

Photo Album for Woburn, MA

Job 29129

November 20, 2015

This week your cab began the paint process. In the next report the cab should finish in paint and begin on the cab line where cab related content is added. The pump plumbing/chassis cooling structure and body may begin fabrication.

**Due to the Pierce Plant Holiday shut down,
your next report is scheduled for December 4, 2015.**
