KILOTECH

Introducing the

Top Gun Mild Steel Frame!

The Top Gun - configure it anyway you like! Choose your mild steel frame in a variety of platter sizes, and then match it to any of our KIN indicators which best suit your requirements. Durable and multifunctional, these bench and platform scales are the preferred option for restaurant, food processing and industrial applications.

Advantages:

✓ Legal for Trade

✓ Removable stainless steel platter (1.2 mm gauge) allows for easy cleaning

✓ Match with the KIN 500, or the KIN1000 and KIN 2000WR indicators with predefined capacity settings to eliminate installation errors

✓ Choice of single or dual range provides you with the flexibility and accuracy required to perform various tasks on one scale

✓ Checkweighing (HI/LO/Target), secondary counting and accumulation functions

KILOTECH

It is a Government requirement that the scale be certified legal for trade when the scale is used to determine pricing in a transaction between the trader and the customer.

In the restaurant and food equipment market, scales are often used to ensure consistency in weight for products sold or used in the preparation of product. Losing even a ½ oz. on each measurement could dramatically increase the cost over time to the manufacturer, baker, distributor, vendor, restaurant, etc…

Legal for Trade scales go through a thorough quality inspection, ensuring reliability – you are guaranteed a quality product and peace of mind.
