

*Get a grip on your stretch wrap needs  
without ever leaving the seat of your forklift.*

## The Yellow Jacket 110<sup>®</sup> Semi-Automatic Orbital Stretch Wrap Systems

1. Mount control box
2. Drive up
3. Hit the switch

Lanyard control to manually or automatically start machine functions.

Orbital “lock-down” technology moves a horizontally positioned stretch-wrap dispenser around and under the pallet as the Yellow Jacket 110<sup>®</sup> is automatically advanced across the length of the load. Lock down any load while you remain on the forklift for all operations.

patent  
pending

*Regardless of product shape or size,  
the Yellow Jacket Semi-Automatic  
Orbital Stretch Wrap System can lock  
the load to the pallet.*

- Available in 87”, 120” or 180” models.
- Automatically starts, wraps and finishes entire wrapping process.
- Secures any standard, oversized or odd-shaped load without bands.
- Prevents damage from shifting and sliding, or dust and debris.
- Boosts productivity while minimizing labor requirements – it’s a one-man operation.
- Saves time – automatically wraps right from the forklift.
- Wrap tension adjusts easily to secure cargo of any size or shape.
- Works with rider forklifts or stand-up, narrow aisle lifts.
- Eliminates the injuries associated with hand wrapping or band breakage.
- Easy start-up and film roll change.
