

Fluke Calibration:

WHO
we are and
WHAT
we stand for

Fluke Calibration is part of the Fluke Corporation.

WE HAVE A LOT IN COMMON

- We listen to our customers.
- We try to give customers a little more than they paid for.
- We constantly look for ways to improve.
- We are passionate about making accurate measurements—and about the metrology behind those measurements.
- We develop leading, innovative products.

BUT THERE ARE DIFFERENCES

Fluke Calibration and the industrial segment of Fluke share some customers, but we also serve different customers. Fluke Calibration and Fluke design and manufacture different types of products.

Fluke

Fluke Calibration

Fluke Calibration brand progression over the years

1948	Acquired in 2000	Acquired in 2001	Acquired in 2007	Acquired in 2010		Today
Fluke Corporation Electrical calibrators, software, and standards	Wavetek Datron Electrical calibrators and standards, RF calibrators, and power calibrators	Hart Scientific Temperature standards, thermometer readouts, probes and baths	DH Instruments Pressure and flow calibration products	Pressurements Pressure calibrators	Ruska Primary pressure standards, transfer standards, and air data test sets	Fluke Calibration
						All calibration brands have come together to form the Fluke Calibration brand

Did you know?
The Meter Convention was signed by 48 countries at the Diplomatic Conference in Paris on May 20, 1875.
We now celebrate World Metrology Day on May 20.

6 Calibration "DISCIPLINES"

Fluke Calibration now includes six calibration "disciplines" that guide the types of products and services we produce.

Electrical	RF	Temperature	Pressure	Flow	Software
------------	----	-------------	----------	------	----------

Precision, performance, confidence.™
The Fluke Calibration tagline embodies what our brand stands for.

Precision.

Our products offer the precision and accuracy that our customers need, from the national measurement institute to the shop floor.

Performance.

Our products perform to their specifications and provide many years of dependable, reliable service.

Confidence.

When you purchase a Fluke Calibration product, you can feel confident that you have made the right choice; and that Fluke Calibration will be available to support you after the sale for years to come.
