Manual Supplement

Manual Title:6100A UsersSupplement Issue:1Part Number:1887628Issue Date:3/09Print Date:December 2008Page Count:2

Revision/Date: Version 6.0

This supplement contains information necessary to ensure the accuracy of the above manual.

For 6101A supplied separately from a 6100A please add this to the applicable 6100A manual.

Users Manual Supplement

Change #1

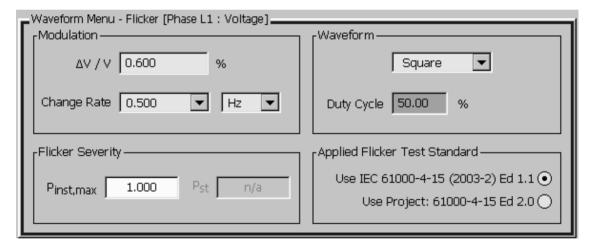

On page 4-19, replace Figure 4-22. Flicker Softkeys with new figure:

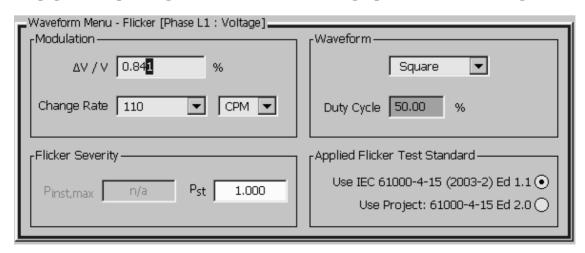

On page 4-19, under Figure 4-22. Flicker Softkeys, insert the following:

The IEC 61000-4-15 Flicker standard is under review with the expectation that Edition 2.0 will be released in 2010 or 2011. The 6100A provides the Pst and Pinst values for both the 2003 amendment 1.1; and for Flickermeter development teams; the values under review by the project team for the Amendment 2.0 standard. The amendment 2.0 proposal includes some new Flickermeter tests which the 6100A presents as 'Extended' functions.

On page 4-21, replace Figure 4-23. Flicker Menu (Frequency) with new figure:

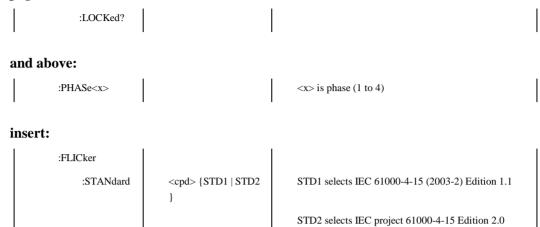

On page 4-21, replace Figure 4-24. Flicker Menu (changes per minute) with new figure:

Users Manual Supplement

On page 5-20, under:

On page 5-28, above 5-54 Power Values insert:

5-54 Flicker Standard Command

SOURce:FLICker:STANdard < cpd> {STD1 | STD2}

This command is used to set the IEC standard Pst and Pinst values that will be used in the Flicker function.

STD1 - Selects IEC 61000-4-15 (2003-2) Edition 1.1.

STD2 - Selects IEC project 61000-4-15 Edition 2.0.

Renumber **5-54 Power Values** to **5-55 Power Values** and increment all subsequent paragraph numbers in chapter 5.

On pages 5-59 to 5-61; table: *RST Settings Related to SCPI Commands:

Replace all entries Last Set Manually in the column Value following *RST with Last Set.
