

# MET/TEAM 3.2.0 HOT FIX README

This document includes information related to MET/TEAM 3.2.0 Hot Fix.

This Hot Fix resolves some vulnerabilities in MET/TEAM and MET/TEAM Customer Portal. See the table below for a complete list.

**This Hot Fix applies only to MET/TEAM version 3.2.0 build 42. Do not attempt to apply this Hot Fix to any other version of MET/TEAM!**

## APPLYING HOT FIX TO MET/TEAM AND MET/TEAM CUSTOMER PORTAL

Follow the procedure below to apply this Hot Fix to MET/TEAM and MET/TEAM Customer Portal. You will need to have Administrator permissions on the machine.

1. Download and extract the contents of the Hot Fix ZIP archive to a temporary folder on the server where MET/TEAM is deployed.
2. Open the **Internet Information Services (IIS) Manager**
  - a. In the **Connections** pane on the left, expand the **Sites** node and select the **METTEAM** website node.
  - b. In the **Actions** pane on the right, click the **Stop** link in the **Manage Website** section.
  - c. If MET/TEAM Customer Portal is deployed on this server, repeat steps 2a-b for the **METTEAM Customer Portal** website.
  - d. In the **Connections** pane on the left, select the **Application Pools** node.
  - e. In the center pane, select the **METTEAM** item
  - f. In the **Actions** pane on the right, click the **Stop** link in the **Application Pool Tasks** section.
  - g. If MET/TEAM Customer Portal is deployed on this server, repeat steps 2e-f for the **METTEAM Customer Portal** application pool.
3. Open File Explorer
  - a. Copy the **MetTeam.dll** file that was extracted from the archive for this Hot Fix from the temporary folder to the MET/TEAM website's \bin folder (typically C:\inetpub\wwwroot\METTEAM\bin), replacing the existing file.
  - b. If MET/TEAM Customer Portal is deployed on this server, repeat step 3a for MET/TEAM Customer Portal (typically C:\inetpub\wwwroot\CustomerPortal\bin).
4. Using IIS
  - a. In the **Connections** pane on the left, select the **Application Pools** node.
  - b. In the center pane, select the **METTEAM** item
  - c. In the **Actions** pane on the right, click the **Start** link in the **Application Pool Tasks** section.
  - d. If MET/TEAM Customer Portal is deployed on this server, repeat steps 4b-c for the **METTEAM Customer Portal** application pool.
  - e. In the **Connections** pane on the left, select the **METTEAM** website node.
  - f. In the **Actions** pane on the right, click the **Start** link in the **Manage Website** section.

- g. If MET/TEAM Customer Portal is deployed on this server, repeat steps 4e-f for the **METTEAM Customer Portal** website.
- h. In the **Connections** pane on the left, select the **METTEAM** website node.
- i. In the **Actions** pane on the right, click the link in the **Browse Website** section to open MET/TEAM in a browser window
- j. Log in to MET/TEAM
- k. Select the **Help > About** menu and verify the version in the lower left corner of the **About MET/TEAM** dialog indicates version **3.2.0.44**

You may now resume using MET/TEAM and MET/TEAM Customer Portal.
