## Crystal Report Writing

# A three-day course on the basics of Crystal Reports using MET/TEAM®

#### **Course outline**

- Overview MET/TEAM functionality
- Introduction to 'reporting' in MET/TEAM
- SQL Server rights overview to support use of Crystal reports editor
- Introduction to SQL Server Management Studio (SSMS)
- Overview of database schema and naming convention
- Define and Discuss Tables, Views, and Stored Procedures
- Introduction to Crystal editor interface
- Define Crystal reports 'components' such as Parameters, Functions, Formulas.
- Review 'included'/'stock' reports via the Crystal Editor
- Create some sample reports as a class
- Develop custom reports

#### Who should attend

This course is designed for those who are involved with modifying or writing custom reports for use with MET/TEAM.

### **Prerequisites**

You are expected to have taken either the MC-205 MET/TEAM Asset Management course or the TWB 1051 MET/TEAM course.

#### **Course information**

Course No.: TRC 1203 Course Length: Three days or 24 hours of class time (This supports requirements for continuing education.)

After completing the course, all attendees will receive a Fluke Certificate of Completion.

Course materials: Fluke will provide all the materials needed to complete the course.

#### Registration

Complete and submit the online registration form at **www. flukecal.com/training**. Once you submit the form, a Fluke Calibration representative will contact you to verify space availability and to discuss payment terms. If you have an active MET/SUPPORT Gold plan or Gold CarePlan, you are eligible for a 20 % discount on course fees. Once you provide payment to finalize your registration, you will receive an email confirmation with course details.

We recommend that you register at least 60 days in advance of the desired course

#### Cancellation

You may cancel your training at no charge upon notifying Fluke Calibration at least two calendar weeks before your confirmed class start date. If your cancellation is received less than two weeks in advance, you will be charged the full tuition for the course.

Fluke Calibration reserves the right to cancel any course that does not reach minimum enrollment two weeks prior to the class start date. Should this happen, you will be notified immediately.

## **Economical training for groups**

If you want to train a large group, an on-site course can be an economical solution. Contact Fluke Calibration for a price quote and details.
