DYMO®

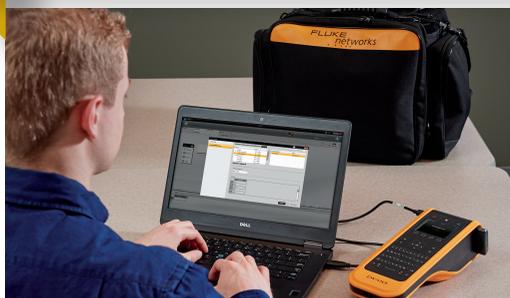

XTL™

FLUKE
networks®

DYMO® ID software, now with Fluke Networks® integration, imports project data directly from LinkWare™ Live to provide a simplified solution for cable label creation.

QUICKLY IMPORT DATA

Import data from a LinkWare Live account in just a few steps to eliminate manual entry, saving time and increasing productivity.

From DYMO ID, easily access LinkWare Live projects, import Cable ID data, and use built-in label applications and pre-loaded templates to further simplify labeling tasks. Transfer label jobs to an XTL™ printer for on-the-job printing.

Use Cable ID data with built-in label applications and time-saving templates for patch panels, wire/cable labels, and more

Lifelike on-screen print preview shows exactly how labels will look when applied to cables, panels, and more

Consistent software design between DYMO ID software and XTL label makers makes it easy to transition between PC and label printer

Works with Windows® 7 and later

DYMO ID available as a FREE download from dymo.com
