Fluke Networks

Subject: Fluke Networks VERSIV/DSX-8000 CableAnalyzer Approval

Dear Harley,

This letter serves as an approval of the Fluke Networks DSX CableAnalyzer™ for use in field-testing of the TSUNET Cabling System.

Tsushin Kogyo Electric Wire & Cable Co.,Ltd has extensively evaluated the measurement accuracy of the VERSIV / DSX -8000 in the laboratories as well as in field-testing. The test results obtained with this field tester correlate very closely with tests performed with laboratory equipment such as the HP Network Analyzer.

We look forward to a continued cooperation and future opportunities to evaluate Fluke Networks products that can be used to test and certify our cabling installations in the field.

Sincerely,

A handwritten signature in black ink that reads "Masahiro Enomoto". The signature is written in a cursive, flowing style.

Masahiro Enomoto
Manager, Technological Development Division
