MANGOAPPS OVERVIEW

At MangoApps we’re passionate about building products that transform the way a company works. When employees enjoy what they do, the tools they do it with, and the environment they are in, amazing things can happen.

At its core, MangoApps equips businesses of all types with an employee platform that combines all crucial employee applications like intranet, messaging, file & content sharing, knowledge management, workspaces, training, recognition, and more. By combining everything into one fully-integrated and connected platform, MangoApps provides an unrivaled level of product breadth, depth, and customizable modularity to meet the demands of any organization.

MangoApps is focused on building the digital hub for your company that provides a holistic employee experience, creating a fun and engaging workplace with strong company culture. The powerful platform approach gives ALL employees within an organization everything they need in a simple, easy-to-use, and fully-mobile interface that is all about increasing engagement, productivity, and collaboration.

INVESTMENT
Bootstrapped & Proud of it
MangoApps is ready to equip your business with integrated employee apps designed to create a truly connected digital workplace. As a leader you no longer have to make a choice between best-of-breed and integrated solutions- you can have both! All MangoApps products are entirely modular and seamlessly integrate with each other no matter how many you choose to deploy. Start with any of our apps and add more as you grow or needs change.
MangoApps understands the importance of giving users and admins access to everything they need in one friendly environment. To make sure that MangoApps becomes the one reliable source of truth for your business, we’ve made integrations easy.

**50+ BUILT-IN INTEGRATIONS**

MangoApps come with built-in integrations allowing users to authenticate and access information from 50+ systems and services, ensuring that all of your company content and data is in one easy to access platform. These integrations include:

- Google Services + Microsoft Office
- Single Sign-On
- File Management
- Customer Support & Ticketing
- Communication, Social Media, and Online Meetings
- Customer Relationship Management
- Developer Tools

**CUSTOM INTEGRATIONS**

We’ve also made it easy to offer employees a holistic experience by seamlessly incorporating and integrating other existing systems into your MangoApps experience. Easily integrate custom apps or widgets, pull from web hooks, or use the MangoApps OpenAPI to create a custom experience to meet specific needs. If you’d like to us develop an integration for you, we’re happy to help - contact us.

**ZAPIER**

With Zapier, MangoApps customers get automation that only takes a few minutes to setup rather than hours or days. As a web-based service, Zapier allows users to automate and create integrations from 1000+ web applications. MangoApps has pre-built a number of automated integrations, but users can easily build any number of Zaps on their own.
Getting started with MangoApps is easy! We understand that selecting and deploying new employee applications has a lot of moving parts and is a big investment that takes time. MangoApps has been built to solve unique problems, because your business is not ‘one-size fits all’.

Whether you’re a new growing business just getting started with employee tools, or an established enterprise with matured and outdated applications, we’re here to help. MangoApps is entirely modular, meaning you can select any number of our integrated applications to start. Learn More About MangoApps Modules.

As your company grows or needs expand, simply add-on additional modules, or deploy Mango360 for an all-in-one suite solution to simplify or replace existing employee tools. And because everything lives under one platform and interface, admins and users will already know their way around.
WHY MANGOAPPS?

TAILORED TO YOUR COMPANY
With the choice of cloud, hybrid, or self-hosted deployment models, MangoApps is ready for your company however you need. The modular, platform-centric approach guarantees that any company can adapt their experience to meet their every need. With 500k+ hours invested in engineering alone, and over a decade in the industry, MangoApps is committed to providing the tools that every company needs to ultimately empower employees and create success.

PRICING THAT MAKES SENSE
MangoApps is honored to earn a majority of new customers through word of mouth. This means that the sales and marketing cost savings is passed directly to the customer, often providing an overwhelming value with 80%+ in hard cost savings. MangoApps allows customers to build an employee platform tailored to their needs, so you only pay for exactly what you need, and add on as you go.

A DIFFERENT BREED OF CUSTOMER CARE
At MangoApps, every single client relationship is highly valued and comes with exceptional customer experience. Whether you’re an enterprise company or a smaller operation, you’ll get the help, guidance, and direction you need to succeed from day one. MangoApps arms all customers with training resources, tailored onboarding, and ongoing support to ensure that you get off on the right foot. With customers all over the world, MangoApps has offices in multiple time zones, helping to serve clients around the clock.

THE PARTNERSHIP YOU DESERVE
We follow a simple mantra: co-create MangoApps with customers. By partnering with customers and listening to their workplace needs and frustrations, we’ve been able to work harder and faster than anyone else in the industry to bring requested enhancements in the app in innovative new ways. Rather than just closing a sale, MangoApps is invested in your long-term success.

- Active sharing of files, document co-editing, and more |
| **Positive Company Culture** | - Collect real-time employee feedback and understand what is or isn't working  
- Enable rewards and peer-to-peer recognition to improve morale and performance  
- Measure employee happiness and increase retention and loyalty |
| **Lock-Tight Security and Compliance** | - Fully encrypted database content, top-notch security, and compliance certifications (HIPAA, SOC, ISO, and much more)  
- Two factor authentication support, plus use MangoApps as your SSO provider  
- Disable and wipe employee data remotely  
- Deploy on-premise to own your own security |
| **Rich Admin & User Training** | - MangoAcademy - Training courses to administer, configure, and use MangoApps  
- Onboarding guides, videos, and help articles to empower self sufficient support  
- LiveChat and Support around-the-clock |
Companies of all industries and sizes trust MangoApps to deploy and centralize all of their must-have functions into one single platform. With customers in nearly every country, countless awards, and glowing reviews, MangoApps may not yet be the best-known product on the market, but to our customers, there's nothing else like it.
MANGOAPPS CUSTOMER CASE STUDIES

We have put together a lot of great case studies for you! Click Here to see all of our case studies.

TEAMHealth
Industry: Healthcare
Employees: 25,000+

“We’re using the filing capability in a really strong way... it’s allowed us to put all of our stuff online in a really easy manner... I would say that [Mango Cloud CMS] exceeded our expectations in how much it would help up with document management, document sharing, and documentation.”

Tom Perrine
TeamHealth CIO

Illinois
Industry: Education
Employees: 13,000+

“Mango [ESN] is the place our members go to meet one another because you’re not going to run into anybody in the staff room or the coffee shop. You can go to Mango [ESN] to see who the members are, to read their profiles, to see their photographs, and to understand better the people with whom you’re forming this community that is EJP.”

Rebecca Ginsburg
Education Justice Project Associate Professor & Director

**Superdrug**

Industry: Healthcare  
Employees: 25,000+

“It can get a bit robotic just sending emails back and forth. Mango Exchange allows us to be more interactive and more modernized. For me, it really helps humanize a job role that could be quite robotic at times. And we’re not just bosses pointing fingers but actually here to support and share ideas and to elevate success.”

David Bannister  
SuperDrug Store Manager

---

**The Wildlife Trusts**

Industry: Fundraising  
Employees: 1,000+

“Mango [Messenger] actually double the amount of communications that we’ve seen as a movement and it’s put an awful lot of people in touch with each other who otherwise wouldn’t have.”

Leanna Manchester  
WildLife Trust Senior Communications Officer

---

**Kruidvat**

Industry: Manufacturing  
Employees: 1,500+

“It’s interactive communication. It provides our employees within the stores the possibility of actually giving their feedback on things that they see... It’s a very interactive and quick way of responding to what you see and that’s fantastic. That’s what our aim was and that’s what the biggest success has been so far.”

Jan Carel Uylenbur  
ASW Benelux HR Director

---

**CCS Fundraising**

Industry: Fundraising  
Employees: 1,000+

“This is our hub. It’s where everyone goes. Not only to collaborate with each other and talk to each other online, but also to get all of the documents they need, share information about their own projects, and share their own resources with each other in a true peer-to-peer interaction.”

Arshia Sultan  
CCS Director of Knowledge & Learning

"MangoApps Is A Great Tool For Connecting People"
MangoApps provides a great social experience throughout our company. Users are spread out across the country in small offices, and this tool helps connect them in a fun way, while also providing them much needed information. It’s easy to upload photos as well as set up meetings and share documents...

Anonymous

"Makes Collaboration Easy, Secure, and More Relevant"
I love the ability to keep multiple teams across multiple platforms up to date. Being in the know is top on priority lists. Having MangoApps lets me update various key points for different users in one area. A definite time saver!

Sarah D

"One of the better intranet/portal offerings available. Very powerful."
Ability to spin up mini sites for teams and groups to help them collaborate effectively and quickly. The product is able to support many users, all with different needs and styles, and still be managed by one central team/admin. We could potentially have used lesser products that were cheaper, but they all hit the wall at some point, with some missing feature or capability...

Bruce B
YOUR COMPANY APP YOUR WAY

Brand, customize, and administer MangoApps to match the look, feel and needs of your business. MangoApps comes packed with features that allow admins to create an engaging and interactive extension of their company brand. From company logos, images, and a personalized favicon, to theme colors, and extensive advanced branding capabilities, we’ve got you covered. Admins can add custom CSS to their network to tailor visual elements and design to match the brand perfectly. To make things easy, we’ve given the ability to standardize and template branding where its needed- Pages, wikis, dashboards, company recognition/awards, branded emails, calendar events, and more!

MOBILE-FIRST

MangoApps is built specifically with the needs of a mobile workforce in mind. Whether you have employees that are remote, traveling, or need to stay connected on-the-go, MangoApps is ready to serve employees away from a desk.

With fully-functional and rich iOS and Android apps, employees get a simple, smart, and intuitive tool allowing them to stay communicate and engage with the rest of the workforce anywhere, at any time. To make content delivery even more easy, MangoApps allows users to share and digest posts as voice-enabled podcasts, so users can listen on the go.
ROLLING OUT MANGOAPPS
