THE MATCHUP THAT DOESN'T ADD UP.

CAR
1½ TONS OF STEEL, PLASTIC, RUBBER & GLASS

VS

TRAIN
80 TONS OF SOLID BUILT AMERICAN STEEL

IT'S NO CONTEST.

SEE TRACKS? THINK TRAIN!

Every day, people are injured or killed trying to beat a train.

SEE TRACKS? THINK TRAIN!

The Sacramento Regional Transit District (RT) Blue Line to Cosumnes River College light rail extension is scheduled to open in September 2015. RT has partnered with Operation Lifesaver to make sure Sacramento area residents know: See Tracks? Think Train!

- Lowered crossing gates and/or warning bells and flashing lights signal that a light rail train is approaching. It is illegal for pedestrians, bicyclists and motorists to cross the tracks when the crossing gates are in a down position.
- When driving, always make sure that the light rail tracks are clear before proceeding through grade crossings.
- When crossing light rail tracks, avoid distractions caused by headphones and personal electronic devices. They can divert your attention from oncoming light rail trains.
- Look both ways before crossing light rail tracks. Light rail trains can travel at any time from either direction and are relatively quiet.

IT'S NO CONTEST.
